## Affordable Housing & Infrastructure Bond (I-Bond)

### Public Oversight Committee

Monday, March 8, 2021

Page 1 of 2

A COMMITTEE MEETING of the Affordable Housing & Infrastructure Bond (I-Bond) Public Oversight Committee (the "I-Bond Committee") was held on March 8, 2021 via Tele-Conference.

#### I. ROLL CALL AND DETERMINATION OF QUORUM

Committee Members

**Present:**

- Ellen Wu, Chairperson
- Daniel Swafford, Vice Chairperson
- Gloria Bailey-Ray, Member
- Ann Griffith, Member
- Baldomero Gonzalez, Member
- Danielle J. Harris, Member
- Tia Hicks, Member

Committee Member

**Absent:**

- Gary Jimenez, Member

Additional Attendees:

- David Jones, Secretary to the Committee
- Dawn Hort, Staff to Committee
- Amanda Fukutome, UC Berkeley Student

The meeting was called to order at 5:01 pm by Chairperson Wu.

#### II. OPEN FORUM/PUBLIC COMMENT

Public Speaker(s):

1. Ryan Lester, Resident of District 2 (San Antonio Park)
2. Kent Lewandowski, Resident of District 2 (San Antonio Park)

#### III. APPROVAL OF DRAFT MINUTES for Meetings of December 14, 2020

**MOTION:** Member Danielle J. Harris made a motion to approve; seconded by Member Ann Griffith. Motion passed. (Exhibit A)

[BAILEY-RAY-Y/ GONZALEZ-Y/ GRIFFITH-Y/ HARRIS-Y/ HICKS-A/ SWAFFORD-Y/ WU-Y]  
(AYES: 7 / NOES: 0 / ABSTAIN: 0)

#### IV. INTRODUCTION OF NEW COMMITTEE MEMBER

As a new member to the I-Bond Committee, Tia Hicks introduced herself to the Committee.

**V. EVALUATION OF MEASURE KK INVESTMENTS**

Ms. Amanda Fukutome is a graduate student at UC Berkeley who is assisting the Committee with setting up an evaluation framework on social equity and anti-displacement. Ms. Fukutome presented an overview of the project and evaluation framework that she was initially tasked with producing a valuation that measure short-term impacts, medium-term impacts and long-term impacts. (Exhibit B)

**VI. ANNUAL REPORT TO CITY COUNCIL**

Chairperson Wu lead the discussion of the annual report to City Council. Committee requested an Ad-Hoc Committee to be set up with DOT and HCD to obtain additional data and more detail information. Member Harris suggested to include in the report a section on the Committee's vision for 2021. (Exhibit C)

**VII. DISCUSSION OF NEXT STEPS**

- a. Identify Future Agenda Items: Three items will be scheduled for the upcoming meeting 1) OPW will provide updates of improvement on fire station projects 2) Amanda Fukutome Evaluation of Measure KK investments and 3) Finalize the Annual Report to the City Council.
- b. Confirm next meeting: Regular Meeting date and time was scheduled as follows:  
Monday, June 14, 2021 at 5:00PM-7:00PM

**VIII. OPEN FORUM/PUBLIC COMMENT**

Public Speaker(s)

1. Kent Lewandowski, Resident of District 2 (San Antonio Park)

**IX. ADJOURNMENT**

**MOTION:** Member Danielle J. Harris made a motion to approve; seconded by Member Gloria Bailey-Ray. Motion passed. The meeting adjourned at 7:10 pm

[BAILEY-RAY-Y/ GONZALEZ-Y/ GRIFFITH-Y/ HARRIS-Y/ HICKS-A/ SWAFFORD-Y/ WU-Y]  
(AYES: 7 / NOES: 0 / ABSTAIN: 0)

### Affordable Housing & Infrastructure Bond (I-Bond)

### Public Oversight Committee

Monday, December 14, 2020

Page 1 of 3

**A COMMITTEE MEETING** of the Affordable Housing & Infrastructure Bond (I-Bond) Public Oversight Committee (the “I-Bond Committee”) was held on December 14, 2020 via Tele-Conference.

#### I. Roll Call and Determination of Quorum

Committee Members *Present*:

- Ellen Wu, Chairperson
- Daniel Swafford, Vice Chairperson
- Gloria Bailey-Ray, Member
- Anne Griffith, Member
- Baldomero Gonzalez, Member
- Danielle J. Harris, Member

Committee Member *Absent*:

- Gary Jimenez, Member
- Ken Lupoff, Member
- Carroll Fife, Member

Additional Attendees:

- David Jones, Secretary to the Committee
- Dawn Hort, Staff to Committee

The meeting was called to order at 5:05 pm by Chairperson Wu.

#### II. OPEN FORUM/PUBLIC COMMENT

Public Speaker(s):

1. Amanda Fukutome, University of California, Berkeley student

#### III. APPROVAL OF DRAFT MINUTES for Meetings of June 8, 2020

**MOTION:** Vice Chairperson Swafford made a motion to approve; seconded by Member Bailey-Ray. Motion passed. (Exhibit A)

[BAILEY-RAY-Y/ GONZALEZ-Y/ HARRIS-Y/ SWAFFORD-Y/ WU-Y]  
(AYES: 5 / NOES: 0 / ABSTAIN: 0)

#### IV. UPDATES FROM HOUSING & COMMUNITY DEVELOPMENT (HCD), DEPARTMENT OF TRANSPORTATION (OAKDOT), AND PUBLIC WORKS DEPARTMENT (OPW)

OakDOT (Exhibit B)

Craig Raphael, Sarah Fine and Julieth Ortiz from OakDOT presented the three-year paving plan with map, breakdown of projects funded by tranche 1 and tranche 2 map, and additional information regarding specific projects in complete streets capital program including safe routes to school program, links are shown below:

Completed Paving Funded by Measure KK map  
Oakland 3-Year Paving Plan – Year 1 in Review  
2019 3-Year Paving Plan Year 1 Update  
OakDOT Complete Streets & SRTS Projects Map

OPW (Exhibit C)

Alison Schwarz, Project Manager from OPW presented the allocation and Project Status of Measure KK, Series 1 (FY2017-2019) and Measure KK, Series 2 (FY2019-2021) with focus on projects for the Oakland Fire Department and Oakland Police Department.

HCD (Exhibit D)

Christina Mun and Christia Mulvey presented responses to the Committee's questions:

1. Is HCD re - thinking "what affordable housing means" in light of where the economy is going?
2. Would HCD potentially re - prioritize its projects in terms of acquisitions and other programs?
3. Provide uncommitted funds and proposal for spending.

**V. UPDATES TO THE COMMITTEE'S VACANCIES**

As a new member to the I-Bond Committee, Anne Griffith introduces herself. Dawn Hort provided updates to the vacancies. Recently appointed new member Anne Griffith and reappointment of Gloria Bailey-Ray, with 3 year-term. There are still two vacancies left that staff will be working on fill. There are 5 committee members whose term will expire on December 31, 2020 (Ellen Wu, Daniel Swafford, Gary Jimenez, Baldomero Gonzalez and Danielle J. Harris). If the members are interested in getting reappointed, then the members must go through the application process. New applications are being process.

**VI. DISCUSSION OF NEXT STEPS**

a. Identify Future Agenda Items: Two items will be scheduled for upcoming meeting 1) Evaluation of Measure KK investments and 2) Annual Report to the City Council. Established an ad hoc committee comprise of Chairperson Wu, Committee Member Harris, Committee Member Griffith to collaborate with Amanda Fukutome.

b. Confirm next meeting: Regular Meeting date and time was scheduled as follows:  
Monday, March 8, 2021 at 5:00PM-7:00PM  
Monday, June 14, 2021 at 5:00PM-7:00PM  
Monday, September 13, 2021 at 5:00PM-7:00PM  
Monday, December 13, 2021 at 5:00PM-7:00PM

VII. OPEN FORUM/PUBLIC COMMENT (No Public Speakers)

VIII. ADJOURNMENT

**MOTION:** Committee Member Harris made a motion to adjourn; seconded by Committee Member Gonzales. Motion passed. The meeting adjourned at 7:06 pm

BAILEY-RAY-Y/ GRIFFITH-Y/GONZALEZ-Y/ HARRIS-Y/ SWAFFORD-Y/ WU-Y}

# Measure KK Evaluation Update

Amanda Fukutome

UC Berkeley

March 8, 2020

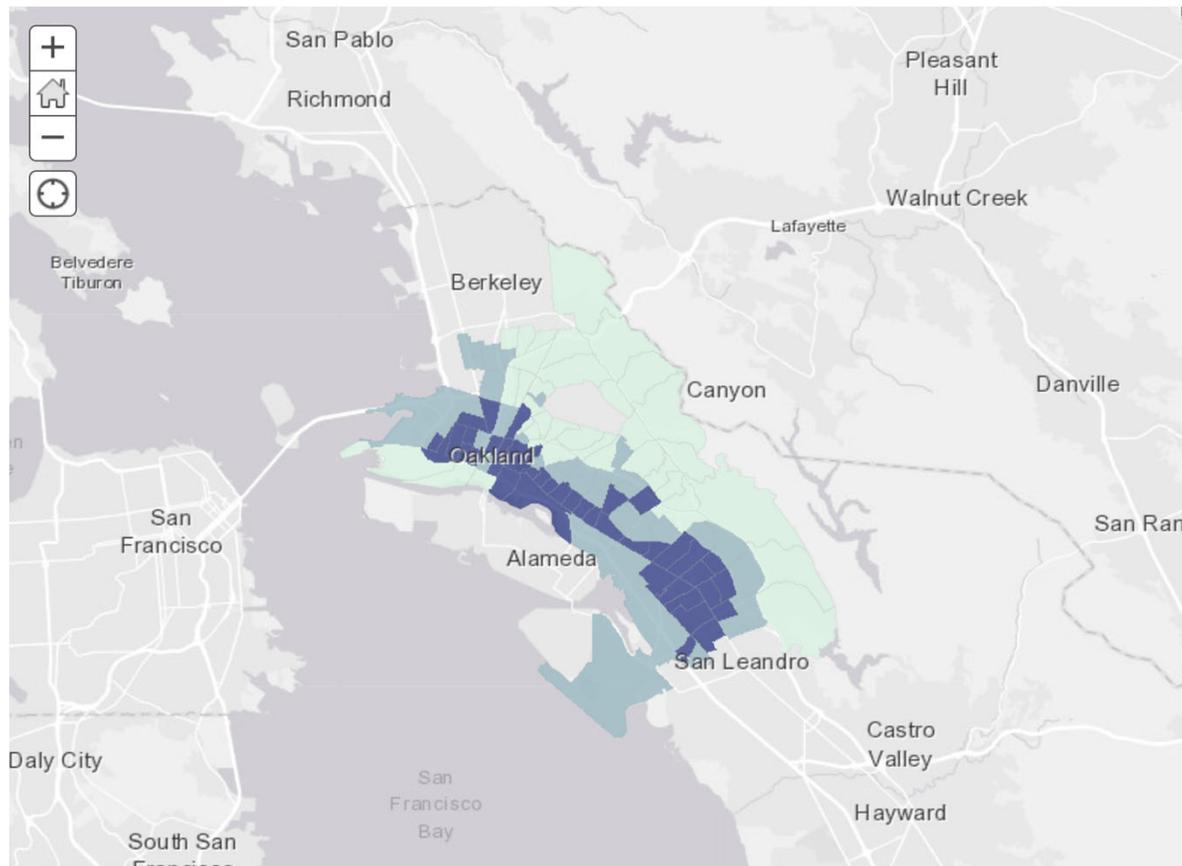

# Overview + Timeline

- **Short Term Equity Impacts (now)**
  - How are investments spatially distributed?
  - Who is being impacted by investments?
  - How well have the new equity criteria for identifying Capital Improvement Projects/Street Projects worked?
- **Medium Term Equity Impacts (approx. 5 years)**
  - Are there measurable impacts of investments in neighborhoods/among residents?
- **Long Term Equity Impacts (approx. 10 years)**
  - Have there been measurable increases in social equity and any adverse impacts to low-income communities of color from Measure KK projects?

# Short term impacts – Vulnerable areas

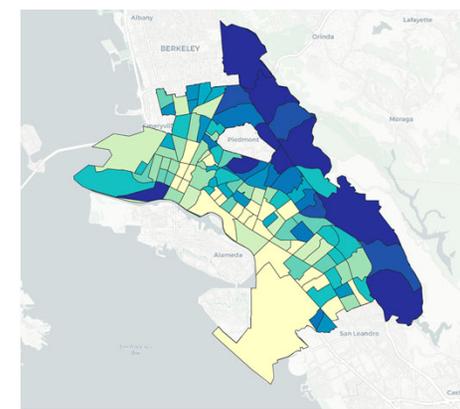

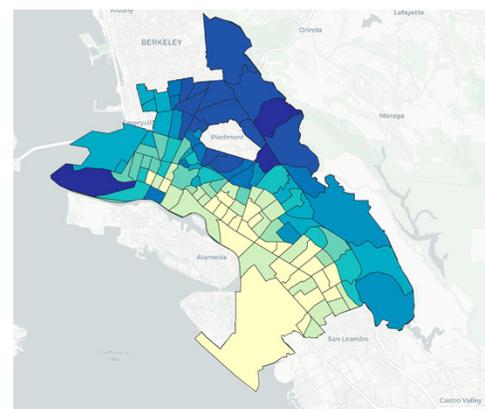

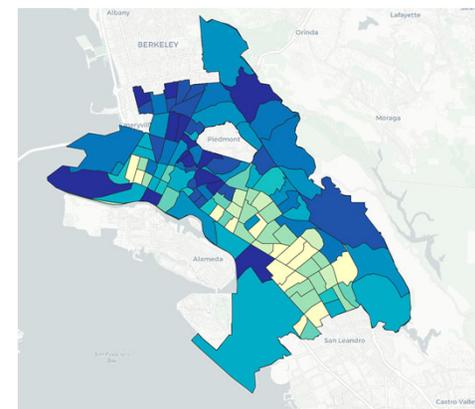

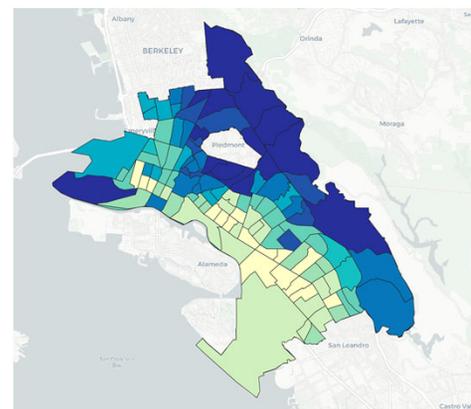

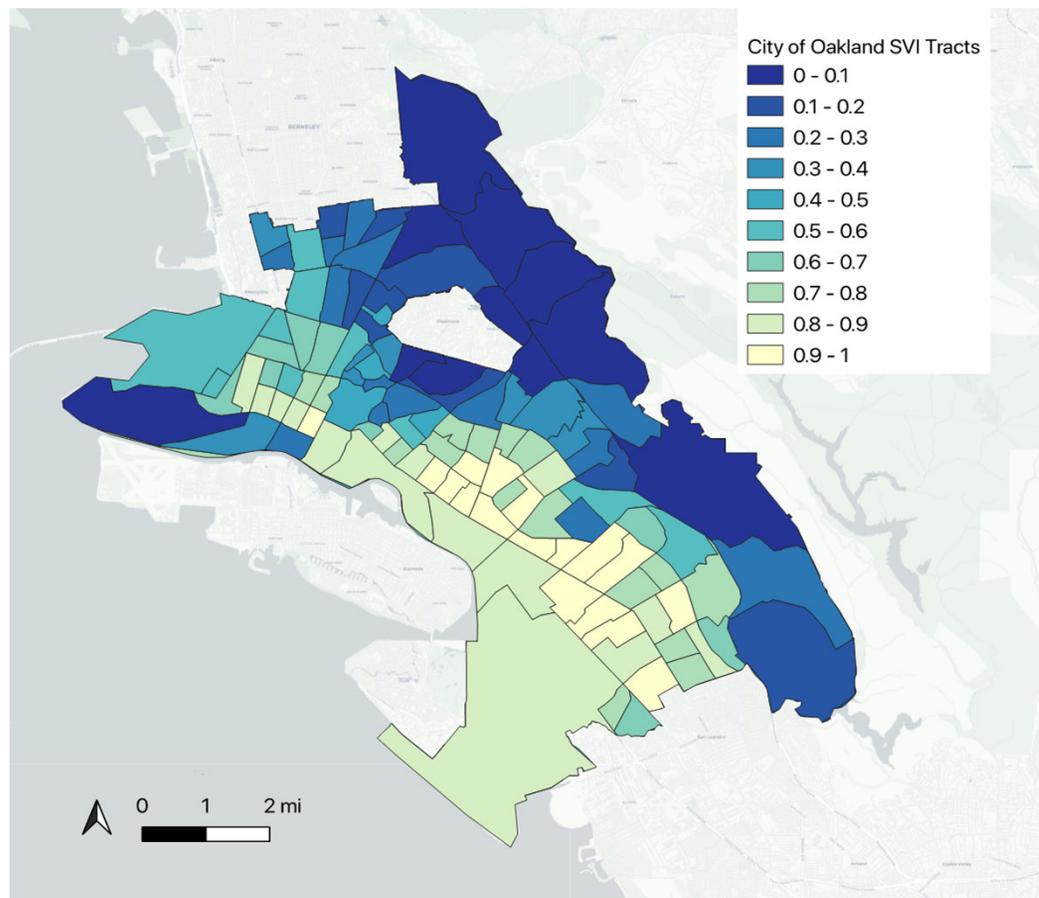

- Is there an equitable distribution of capital projects and spending across the city?
  - Do census tracts with higher vulnerability scores/areas of concern get a higher proportion of capital projects?
  - **In process:** defining vulnerability scores/areas of concern
    - Different ways to define vulnerability
    - Oakland Equity Index
    - Individual ACS indicators
    - Social Vulnerability Index (2018)
    - Other ways to establish scores?

# Example: Oakland Equity Map Communities of Concern (2016)

Source: City of Oakland, 2016,  
<https://www.arcgis.com/home/item.html?id=1ff09a9d0ccb49c29c9df8c8c1b12bf3>

# Example: Social Vulnerability Index

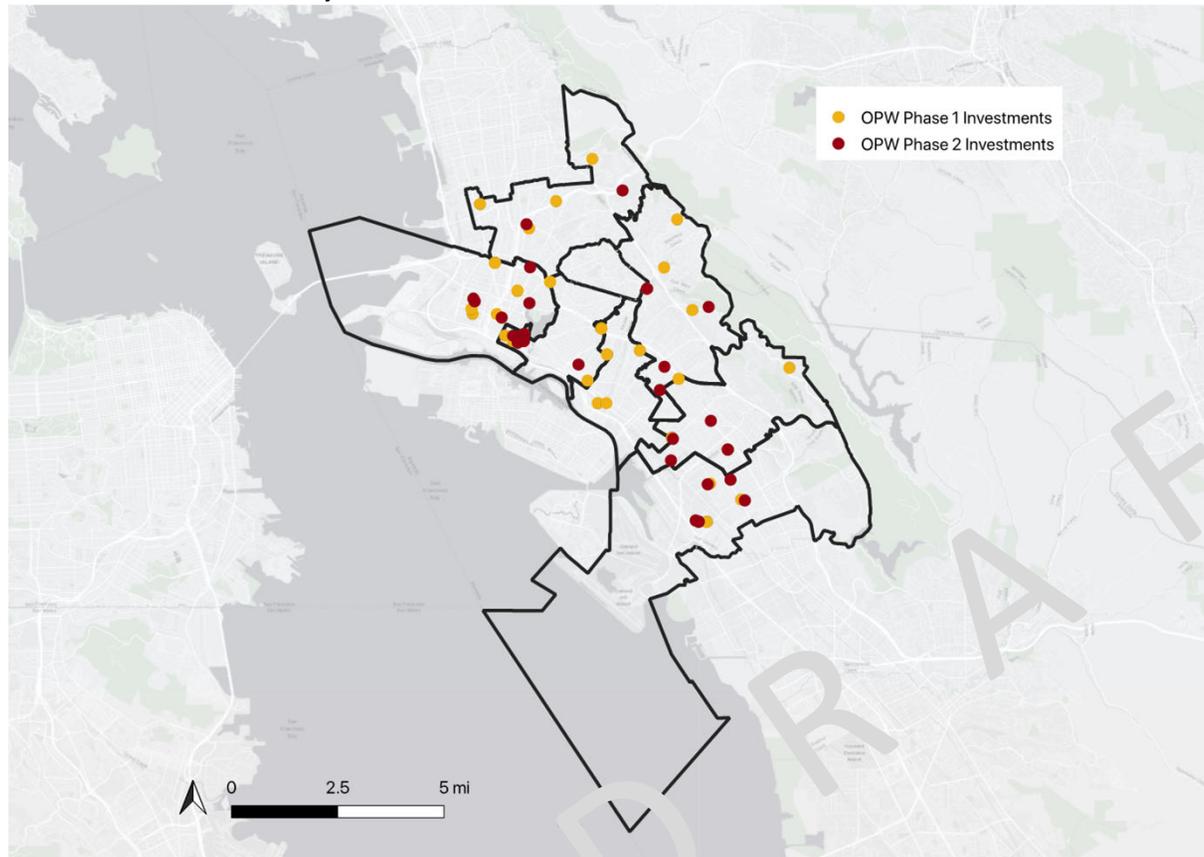

Centers for Disease Control and Prevention/ Agency for Toxic Substances and Disease Registry/ Geospatial Research, Analysis, and Services Program. CDC Social Vulnerability Index **2018**, CA]. [https://www.atsdr.cdc.gov/placeandhealth/svi/data\\_documentation\\_download.html](https://www.atsdr.cdc.gov/placeandhealth/svi/data_documentation_download.html). Accessed on 1/4/2021

## Short term impacts – spatial mapping

- Once the appropriate method for scoring tracts is identified, can look at:
  - Where are the investments located?
  - Who are the investments impacting?
  - What is the density of investment in an area?

# Mapping – Distribution of CIP Projects (Phase 1 v. Phase 2)

Source: OPW. 2021. Measure KK Annual Report.

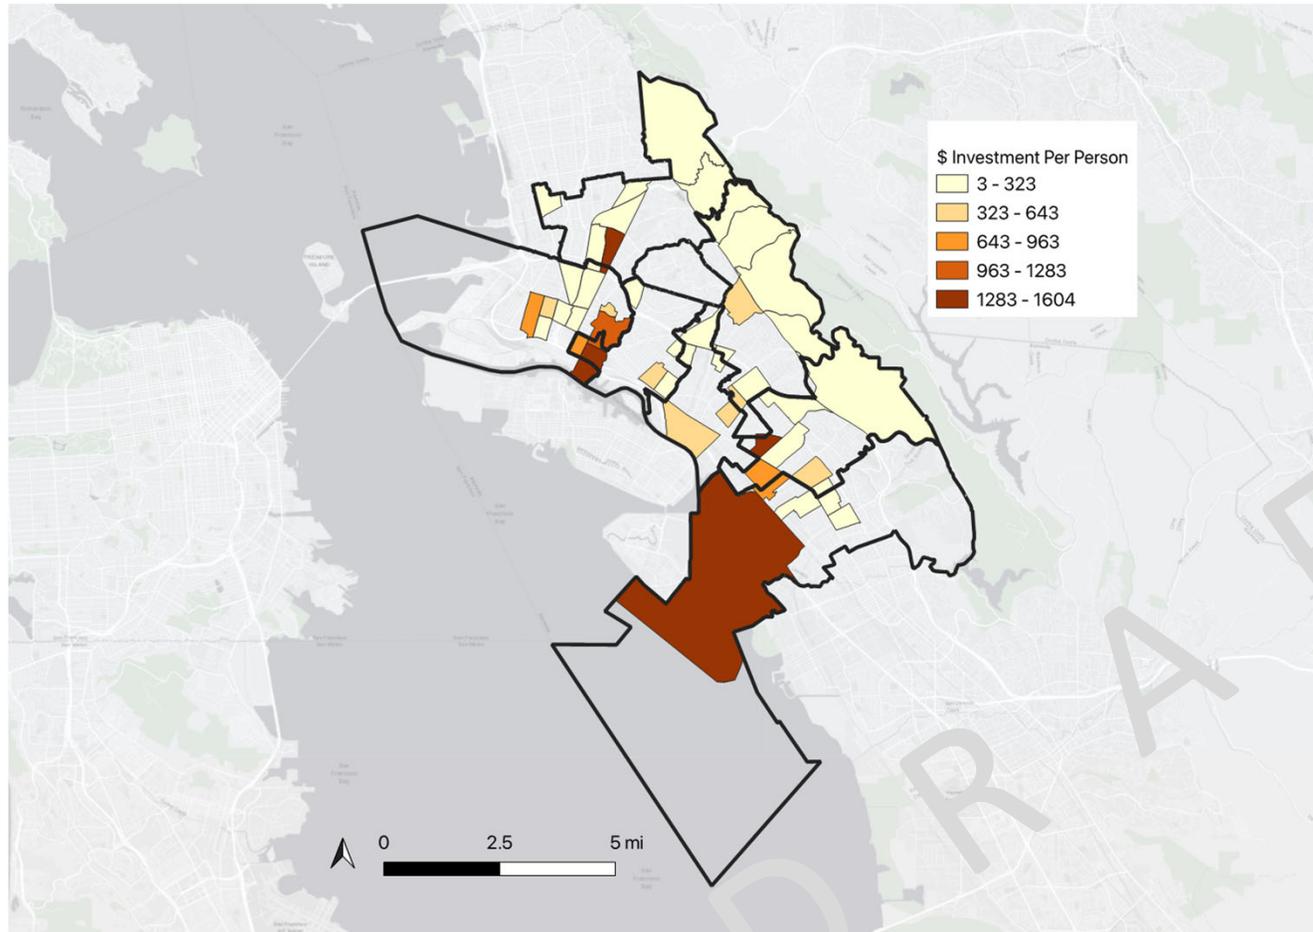

**Slide 7**

---

**AF1**

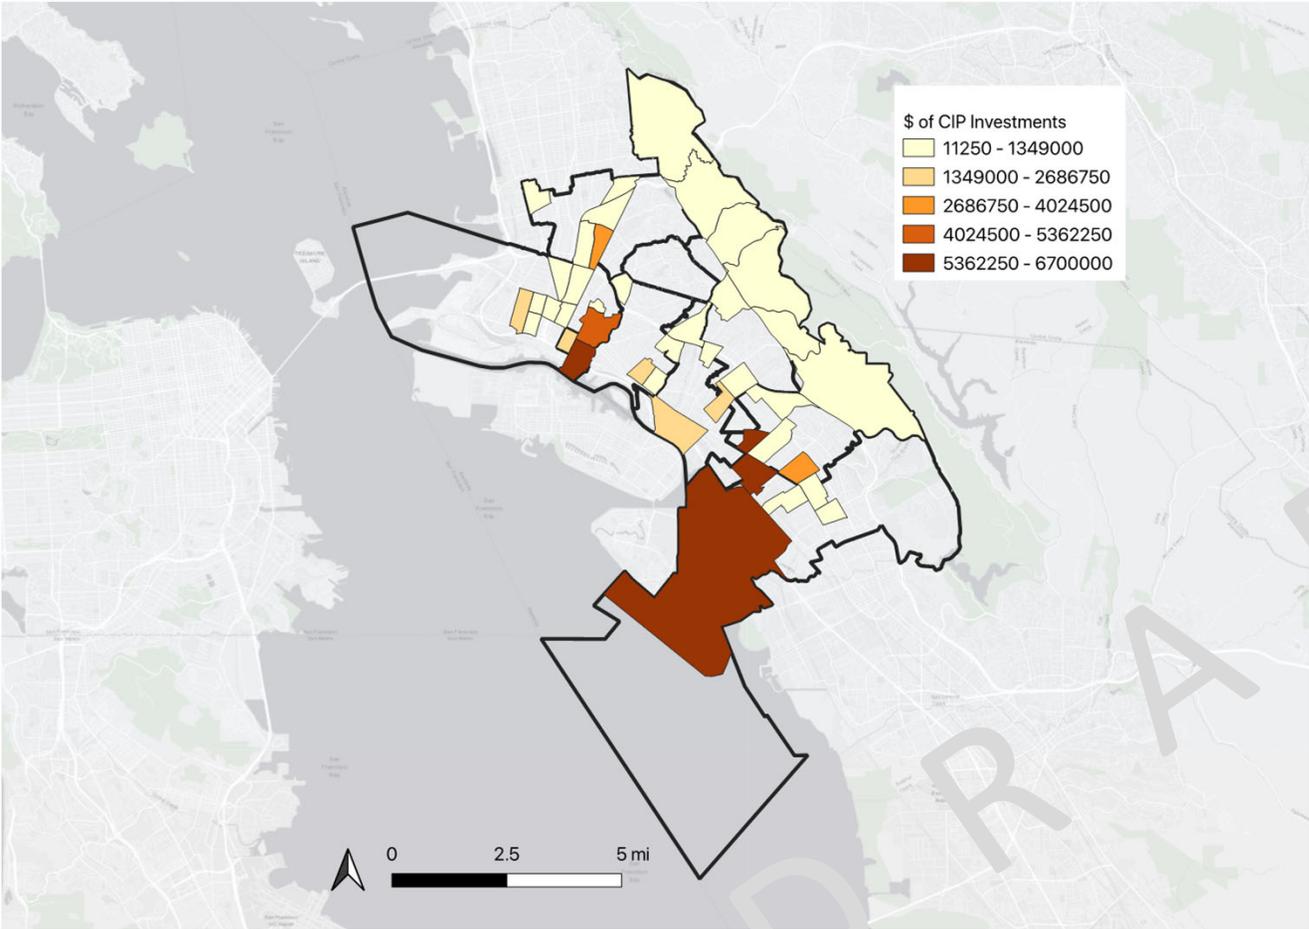

Amanda Fukutome, 3/2/2021

# Mapping – CIP Projects Investment Per Person

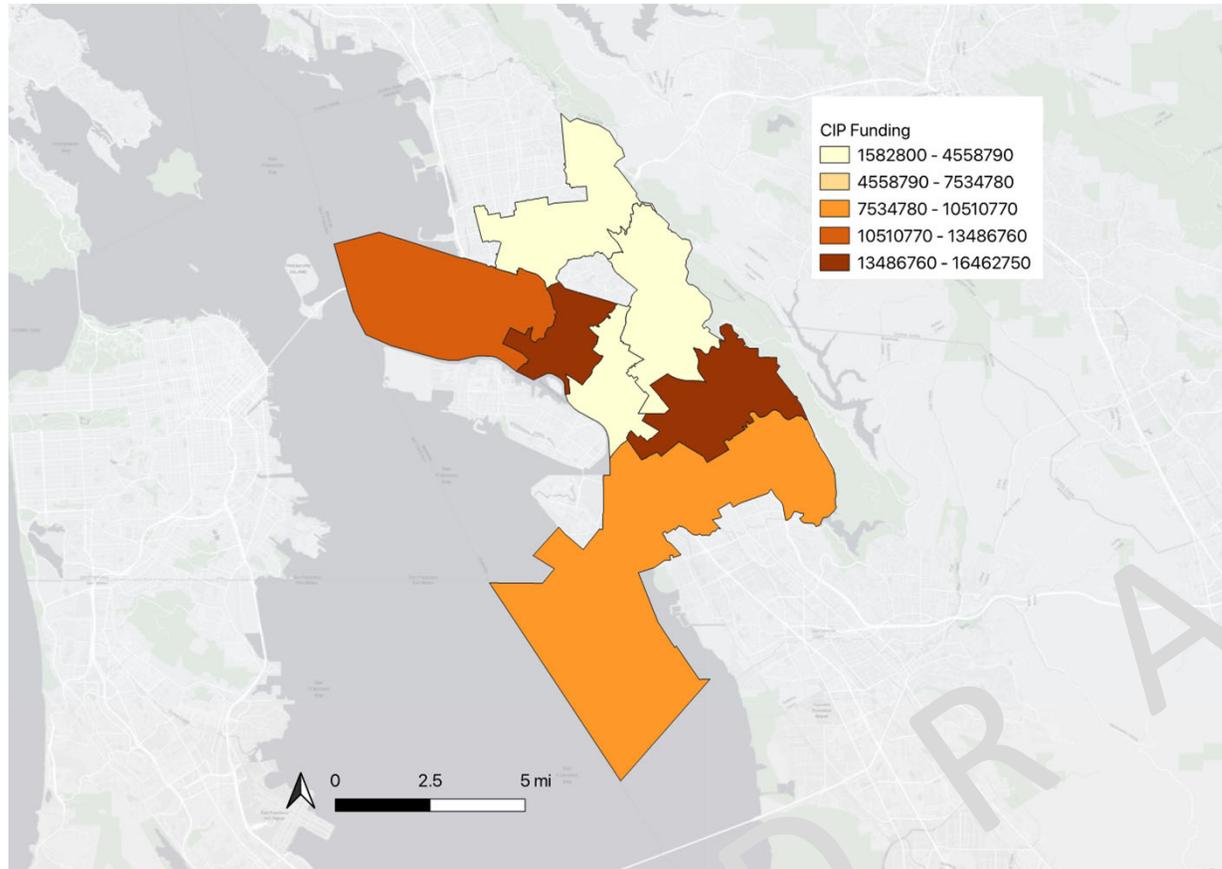

Source: OPW. 2021. Measure KK Annual Report.

# Mapping – Distribution of CIP Funding (census tracts)

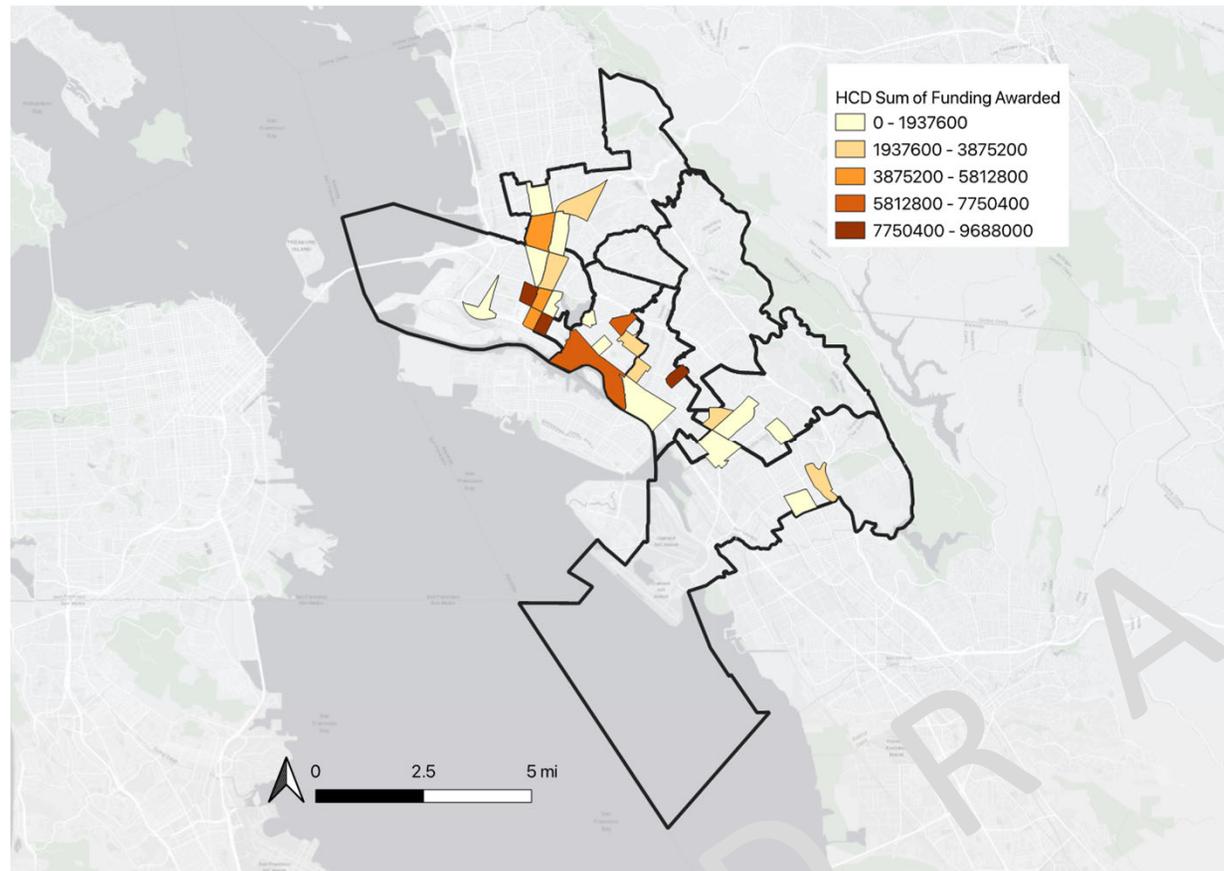

Source: OPW. 2021. Measure KK Annual Report.

# Mapping – Distribution of CIP Funding (council districts)

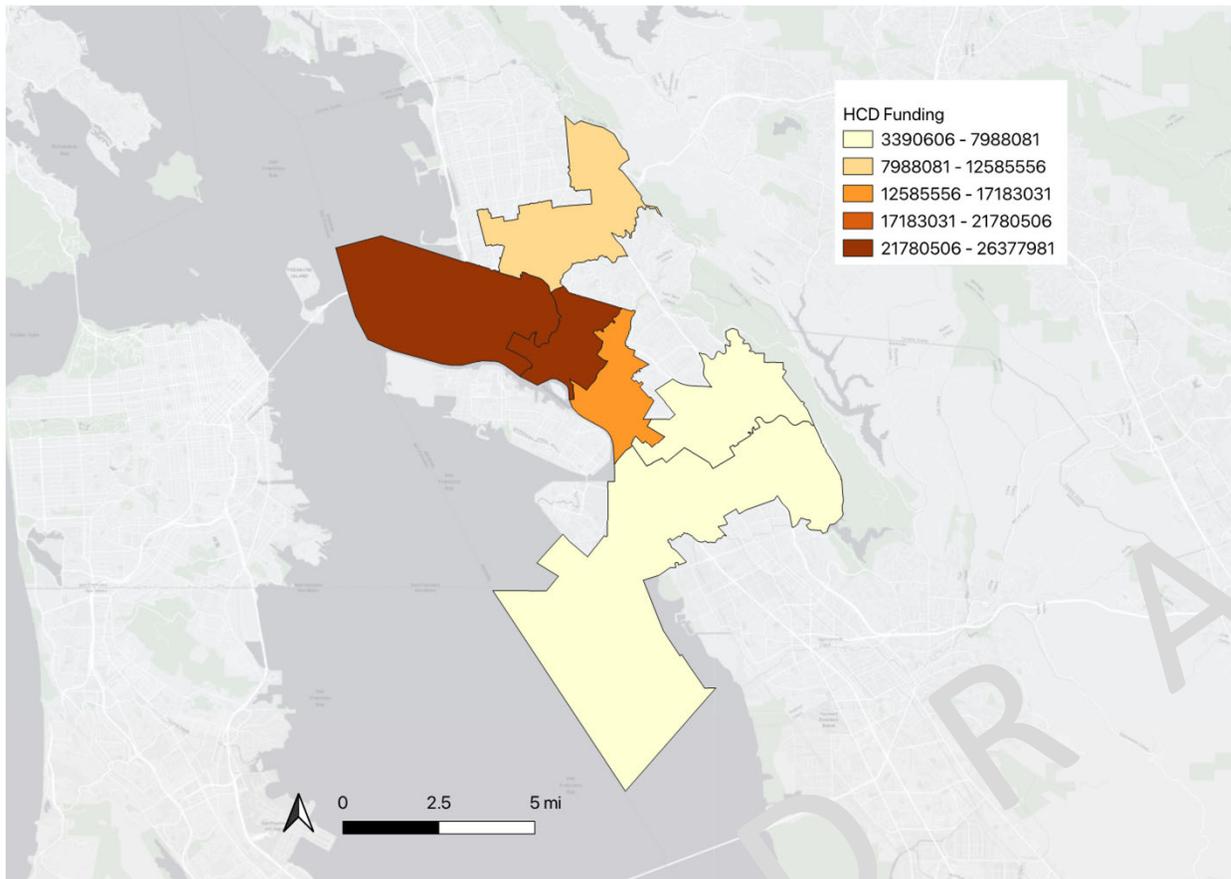

Source: OPW. 2021. Measure KK Annual Report.

# Mapping – Distribution of Affordable Housing Funding

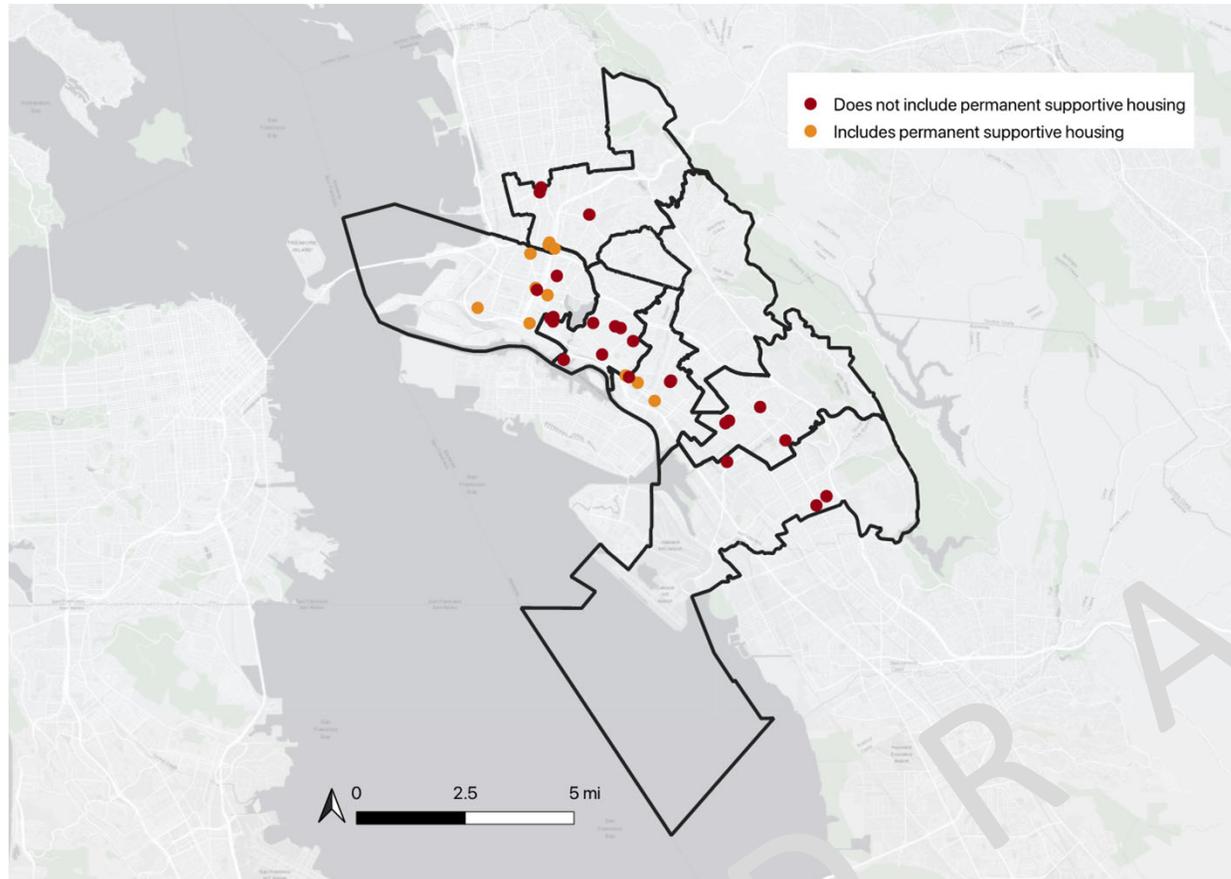

Source: HCD. 2021. Measure KK Annual Report.

# Mapping – Distribution of Affordable Housing Funding (council districts)

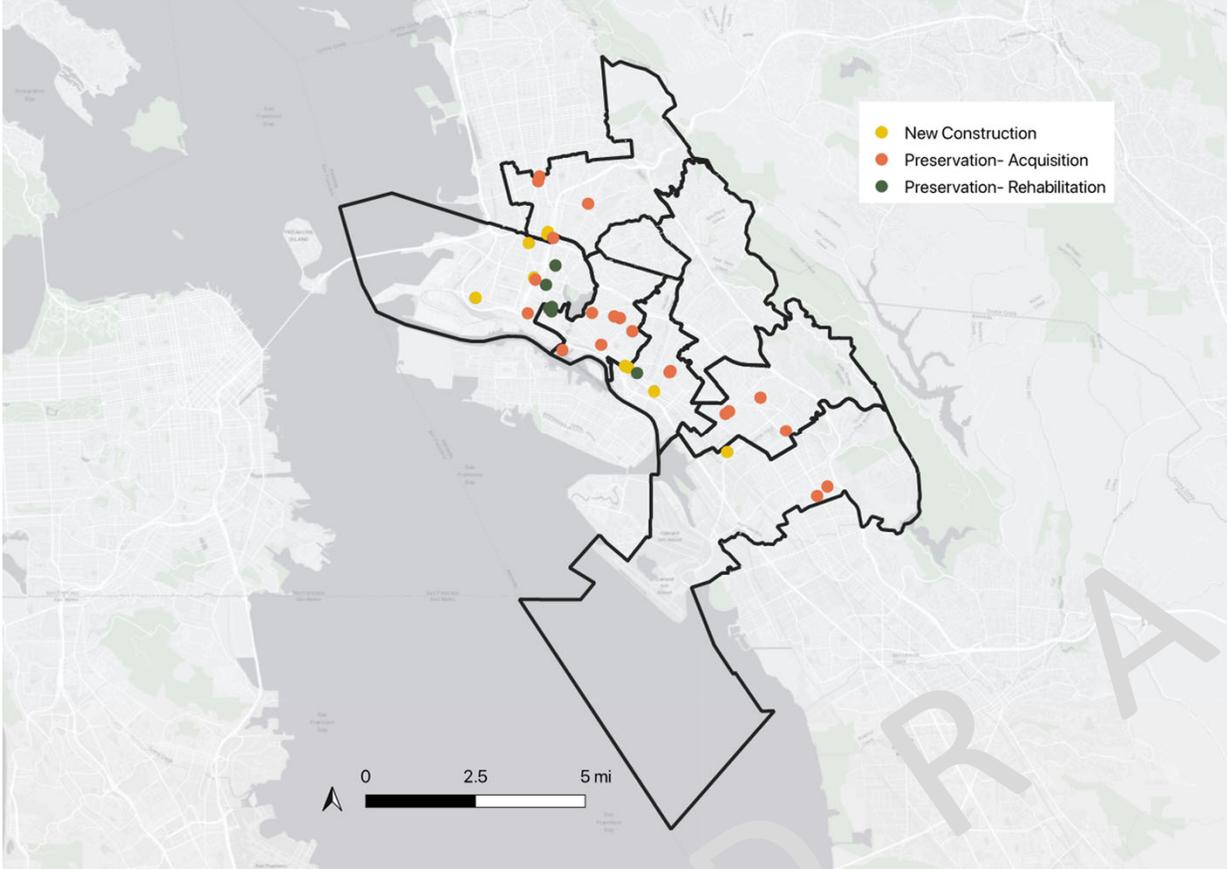

Source: HCD. 2021. Measure KK Annual Report.

# Mapping – Distribution of Permanent Supportive Housing

Source: HCD. 2021. Measure KK Annual Report.

# Mapping – Distribution of Housing by Type

Source: HCD. 2021. Measure KK Annual Report.

# What can spatial mapping tell us?

- Ultimately, we can use spatial mapping and calculations to understand:
  - Who is benefitting from what types of investments
    - How much \$ is being spent per tract/geography
    - Density of investment (per person) in tract/geography
    - Types of investments vs. demographics of the people that live there
  - Are more vulnerable areas getting more investment?
    - Is there an equal distribution of projects and investment or is there an equitable distribution of projects and investments?
  - Help us set a baseline against which to measure future change

# Analysis

To understand the short-term impact, we will use:

- Demographics
- Identified areas of vulnerability/concern
- Spatial mapping and calculations
- Summary statistics
- Qualitative data
  - Questionnaires
  - Scoring Criteria
- Other data?

# Progress and Next Steps

- March 2021
  - Finalize vulnerability scoring and feedback from Committee and departments
- April to May 2021
  - Finish analyses for short term equity impacts
  - Draft short-term report with draft framework to measure medium to long-term equity impacts
- June 2021
  - Present draft report to Committee

## EXHIBIT C

### Report by Measure KK Public Oversight Committee on Expenditure of First and Second Tranche of Funds March 2021

#### EXECUTIVE SUMMARY

On November 8, 2016, the City of Oakland (the “City”) received voter approval authorizing the City to issue **\$600 million** in general obligation bonds to fund various City infrastructure and affordable housing projects (“Measure KK”). Measure KK requires the creation of the Public Oversight Committee to review financial and operational reports related to the expenditures of bond proceeds and evaluate the impacts and outcomes of such expenditures, including social equity, anti-displacement, and affordable housing in particular.

On August 1, 2017, the City issued the first tranche of general obligation bonds totaling \$117,855,000 to finance acquisition and improvements to streets and sidewalks, facilities, and affordable housing, which was allocated for the FY 2017-2019 budget. On January 21, 2020, the second tranche was issued for \$184,890,000 for the FY 2020-2022 budget. The total amount for projects was xx, less xx [A1] of the full amount due to the expenses associated with the issuance of the bonds.

***Of the total funds allocated from Measure KK to date, \$169,359,707 (56%) has been spent and encumbered or committed.***

A summary by Department is below[A2]:

DEPARTMENT	FY 2017-2019 & FY 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED OR COMMITTED	FY 2017-2019 & FY 2020-2021 BALANCE REMAINING
Department of Transportation: Streets and Roads (\$350 million)	\$138,330,000	\$66,234,407 (48%)	\$72,095,593
Oakland Public Works: Facilities (\$150 million)	\$63,423,800	\$14,842,197 (23%)	\$48,581,603
Housing and Community Development: Affordable Housing (\$100 million)	\$100,000,000	\$88,283,103 (88%)	\$ 11,716,897
<b>TOTALS</b>	<b>\$301,753,800</b>	<b>\$169,359,707 (56%)</b>	<b>\$132,394,093</b>

On December 12, 2017, the Mayor appointed nine (9) members to serve on the Affordable Housing & Infrastructure Public Oversight Committee (the “Public Oversight Committee”) and the appointments were confirmed by City Council on December 18, 2017. (Please refer to Attachment A for a current list of committee members.) The Public Oversight Committee submitted our first report on the status of the expenditures of the funds and the projects to the City of Oakland’s Finance and Management Committee in March 2019. That report can be found at: <https://oakland.legistar.com/LegislationDetail.aspx?ID=3879781&GUID=414E29EA-A319-4BF4-9A72-E148A2EFD708&Options=ID|Text|&Search=measure+kk>. The second report was submitted in March 2020 and **can be found** at [A3]:

## **BACKGROUND**

On November 8, 2016, more than two-thirds of the qualified voters of the City approved Measure KK authorizing the City to issue general obligation bonds in an amount of **\$600 million** “to improve public safety and invest in neighborhoods throughout Oakland by re-paving streets, which included to remove potholes, rebuilding cracked and deteriorating sidewalks, funding bicycle and pedestrian safety improvements, funding affordable housing for Oaklanders, and providing funds for facility improvements, such as, neighborhood recreation centers, playgrounds and libraries.” Projects to be funded by the \$600 million bond includes the following:

1. Streets and Roads Projects in the amount of \$350 million
  - a. Street paving and reconstruction
  - b. Bicycle and pedestrian improvements; bikeways, sidewalks, paths, stairs, streetscape, curb ramps
  - c. Traffic calming improvements
2. Facilities Projects in the amount of \$150 million
  - a. Fire Facilities (\$40 million)
  - b. Police Facility (\$40 million)
  - c. Libraries (\$15 million)
  - d. Parks, Recreation and Senior Facilities (\$35 million)
  - e. Water, energy and seismic improvements consistent with the City’s Energy and Climate Action Plan (\$20 million)
3. Anti-Displacement and Affordable Housing Preservation Projects in the amount of \$100 million
  - a. Funds may be spent on the acquisition, rehabilitation, or new construction of affordable housing as set forth in the Affordable Bond Law Ordinance.

On August 1, 2017, the City issued \$117,855,000 City of Oakland General Obligation Bonds, Measure KK, Series 2017A-1 and Series 2017A-2 (together the “Bonds”) to provide funds for 1) street paving and reconstruction; bicycle, pedestrian and traffic calming improvements; construction, purchase, improvement or rehabilitation of City facilities including fire, police, library, parks, recreation, and senior facilities; and water, energy and seismic improvements consistent with the City’s Energy and Climate Action Plan, all as set forth in Resolution No.

86773, adopted by the City Council on June 19, 2017, as amended by Resolution Nos. 86815 C.M.S. and 86816 C.M.S., each adopted by the City Council on June 29, 2017 and 2) anti-displacement and affordable housing preservation projects, including the acquisition, rehabilitation, or new construction of affordable housing in accordance with the City's Affordable Housing Bond Law Ordinance and as set forth in Resolution No. 86774 C.M.S. adopted by the City Council on June 19, 2017, as amended by Resolution No. 86814 C.M.S. adopted by the City Council on June 29, 2017.

On February 13, 2020, the City issued \$184,890,000 City of Oakland General Obligation Bonds, Measure KK, Series 2020B-1 and Series 2017B-2 (together the "Bonds") to provide funds for: 1) Street paving, resurfacing and reconstruction; bicycle, pedestrian and traffic calming improvements; and construction, purchase, improvement, or rehabilitation of City facilities including fire, library, parks, recreation, and senior facilities, consistent with the City's FY 2019-21 Capital Improvement Program (CIP) all as set forth in Resolution No. 87981 C.M.S., adopted by the City Council on December 10, 2019, and 2) Anti-displacement and affordable housing preservation programs, including the acquisition, rehabilitation, or new construction of transitional housing and affordable housing for ownership and rent in accordance with the City's Housing Bond Law and as set forth in Resolution No. 87981 C.M.S., adopted by the City Council on December 10, 2019.

Measure KK requires the creation of the Public Oversight Committee to review financial and operational reports related to the expenditure of bond proceeds to confirm that the funds were used in a manner permitted under Measure KK and to evaluate the impacts and outcomes of the bond expenditures on Measure KK's stated goals, including social equity, anti-displacement, and affordable housing. The Public Oversight Committee reports to the City Council.

On December 12, 2017, the Mayor appointed nine (9) members to serve on the Affordable Housing & Infrastructure Public Oversight Committee and the appointments were confirmed by City Council on December 18, 2017. The Public Oversight Committee submitted our first report on the status of the expenditures of the funds and the status of the projects to the City of Oakland's Finance and Management Committee in March 2019. That report can be found at: <https://oakland.legistar.com/LegislationDetail.aspx?ID=3879781&GUID=414E29EA-A319-4BF4-9A72-E148A2EFD708&Options=ID|Text|&Search=measure+kk>. The second report was submitted in March 2020 and can be found at [A4]:

#### **SUMMARY OF ALLOCATED FUNDS**

On August 1, 2017, the City issued the first tranche of general obligation bonds totaling \$117,855,000 to finance acquisition and improvements to streets and sidewalks, facilities, and affordable housing, which was allocated for the FY 2017-2019 budget. On January 21, 2020, the second tranche was issued for \$184,890,000 for the FY 2020-2022 budget. The total amount for projects was xx, less xx [A5] of the full amount due to the expenses associated with the issuance of the bonds.

***Of the total funds allocated from Measure KK to date, \$169,359,707 (56%) has been spent and encumbered or committed.***

Working with the Department of Transportation, Oakland Public Works, and Housing and Community Development, the Public Oversight Committee developed a reporting template and questionnaire to collect data about the bond fund expenditures and status of the projects. Below is a summary of their responses by Department. The completed reporting form and questionnaires are attached.

***Oakland Department of Transportation (OakDOT)***

A total of \$97,730,000 of Measure KK funds was allocated to transportation projects, which includes paving and bicycle street paving, complete streets capital (pedestrian, bicycle, and transit infrastructure), curbs ramps to comply with the Americans with Disabilities Act (ADA), Neighborhood Traffic Calming Program and Safe Routes to School, and sidewalk repairs. Of the total amount, \$27,464,484 has been spent and \$80,225 is encumbered, which is approximately 28% of the total funds allocated. A summary of the allocations and expenditures is below:

TRANSPORTATION: PROGRAM NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED AS OF 12/21/20	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Paving and Bike Paving	\$75,250,000	\$24,007,886 (32%)	\$51,242,114
Complete Streets Capital	\$13,480,000	\$1,953,340 (14%)	\$11,526,660
ADA Curb Ramps	\$4,000,000	\$492,374 (12%)	\$3,507,626
Neighborhood Traffic Calming/Safe Routes to School	\$3,000,000	\$139,301 (5%)	\$2,860,699
Sidewalk Repairs	\$2,000,000	\$951,809 (48%)	\$1,048,191
<b>TOTALS</b>	<b>\$97,730,000</b>	<b>\$27,544,709 (28%)</b>	<b>\$70,185,291</b>

***Paving and Bike Paving***

In 2019, DOT developed a [3-year paving plan policy](#), which used street condition, population density, and equity factors to identify the local streets to be paved. This plan was used to allocate the second tranche of paving funds (\$75,250,000). DOT distributed funding for local streets by the share of underserved populations and share of local street miles in poor condition.

DOT also implemented a new Capital Improvement Project (CIP) criteria for prioritizing which projects to be funded (see Social Equity and Anti-Displacement section below for more

information), with the second tranche of funds. Although the Oversight Committee has requested that DOT provide Capital Improvement Scores for Equity and Safety indicators at the corridor level when reporting on the projects funded by the second tranche, which was only provided for individual Complete Streets projects. The paving projects overall scored a 82.5[A6], and specifically had the following scores for four questions that the Oversight Committee were particularly interested in:

- 9.5 for being in a "Priority Neighborhood Area" category
- 2 for alignment with the City's Racial Equity Framework, which prioritize communities within neighborhoods at risk of gentrification and/or displacement
- 6 for helping to reduce health disparities in communities with disproportionate poor health outcomes and/or limited access to healthy living
- 5 for helping to reduce safety disparities in most vulnerable Black, Indigenous, People of Color (BIPOC) communities

According to DOT's report, there has been no delays in paving projects. The Public Oversight Committee would like to continue to highlight that the bond funds can **only be used for resurfacing, not for maintenance activities, such as potholing.**

#### *Complete Streets*

Measure KK funding was used specifically to fund the required local match for grant supported projects, which increased Oakland's competitiveness in securing outside sources. The Complete Streets funding has leveraged \$83,982,540 of other funding. Out of 30 [A8] Complete Streets projects:

- 1 project is closing out
- 11 are under construction
- 5 are in the design phase
- 1 is in planning
- 10 are in the bid/award phase
- 1 project is on hold

#### *Safe Routes to Schools*

DOT reported that there have been delays in Safe Routes to Schools projects. Out of the 20 locations allocated funding from the first and second tranche, six school are completed and two schools [A9] are in progress. The delays are a result of limited staff time in Safe Streets Division due to the implementation of Shelter-in-Place social distancing programs and a citywide hiring freeze.

#### *DOT Capacity*

When asked about limitations to their capacity to implement the projects, DOT responded that their constraint continues to be staffing and access to consultants to complete project designs. In addition, new initiatives in response to COVID-19 shelter-in-place orders have drawn from the department's overall resources, and demand extensive engineering to ensure the safe and responsible mixing of transportation modes. Additionally, the City of Oakland has instituted a hiring freeze due to the pandemic, which has affected vacancies and hiring efforts across teams.

DOT also highlighted that the extremely high cost of inflation of capital projects have been a challenge, as project bids are consistently above cost estimates which results in acquiring additional capital.

*Community Engagement*

The Oversight Committee asked the Department to describe their community engagement activities. DOT reported that typically the community is involved at the beginning of the project to develop conceptual frameworks and in the majority of cases most of the stakeholders end up supporting the final project scope with an understanding of the issues or compromises required.

For details on these projects, please refer to Attachment x and Attachment x for the completed spreadsheets, and Attachment x to DOT’s responses to the questionnaire.

To view an interactive map of the project locations, including the Oakland Equity Index (OEI) demographics and score by project go to:

<http://oakgis.maps.arcgis.com/apps/webappviewer/index.html?id=c9353519c32644d5b362eea1794686f0>

***Oakland Public Works (OPW)***

A total of \$63,423,800 of Measure KK funds was allocated to 48 public works projects. Of the total amount, \$14,027,301 of the funds have been expended, and \$881,899 have been encumbered as of [xx][A10], which is approximately 23% of the funds. These funds were used to leverage an additional \$23,799,240 of funding from other sources.

A summary of the allocations and expenditures is below:

PUBLIC WORKS: PROGRAM NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED AS OF [xx][A11]	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Fire Department Facilities	\$13,237,500[A12]	\$3,756,481	\$8,281,019
Police Department Facilities	\$200,000	\$71,152 (36%)	\$128,848
Library and Museum Facilities	\$14,770,000	\$982,808 (7%)	\$13,787,192
Human Services Facilities	\$6,612,500	\$1,889,154 (29%)	\$4,723,346
Parks, Recreation, and Youth Development Facilities	\$25,603,800[A13]	\$7,948,866	\$17,392,434

Animal Services	\$3,000,000	\$260,738 (9%)	\$2,739,262
<b>TOTALS</b>	<b>\$63,423,800</b>	<b>\$14,842,197</b> [A14](23%)	<b>\$48,581,603</b> [A15]

Below is a status of the 48 projects:

- **Completed**[A16]:
  - Head Start Recreation Center Arroyo Viejo (District 6)
  - Head Start Recreation Center Brookfield (District 4)
  - Head Start Playgrounds at Arroyo Viejo (District 6), Brookfield (District 4), Manzanita (District xx), and San Antonio (District xx)
  - Rainbow Recreation Center (District 6)
  - Oakland Fire Department Roof Assessment & Replacement (Stations 1, 3, 5, and 20)
  - Oakland Fire Department Telescopic Apparatus Door Replacements (Stations 3, 5, 6, 7, 15, 17, 24, & 25)
  - Tassafaronga Gym Waterproofing (District xx)
- **Post-construction:**
  - The Lions Pool in Dimond Park (District 4)
  - Oakland Fire Department Apron & Hardscape (CW Stations #21, 16, 8, 5, 19, 13, 10 and 17)
- **Under Construction:**
  - Head Start Recreation Centers Manzanita (District 5)
  - Ballfields Wiring Hazard Mitigation (Golden Gate, Curt Flood, Tassafaronga, and Lowell ) Districts 1, 4, 7, 3
  - Dimond[A17] Park - Tennis Courts (District 4)
- **Design Phase:**
  - Oakland Animal Services Center (District xx/citywide)
  - Henry Robinson Multi-services Center (District 2)
  - Caldecott Trailhead Improvements (District 1)
  - Digital Arts & Culinary Academy Phase 2 Renovation (District 6)
  - Holly Mini Park (District 7)
  - Madison Park Irrigation Upgrade/Repair (District 2)
  - Mosswood Community Center (District 3)
  - Main Library Remodel (District xx/citywide)
  - Branch Library Renovations Brookfield (District 7)
- **Planning phase:**
  - Fire Station #29 New Station & Training Complex (District 6)
  - Fire Station #4 (District 2)

- Downtown Oakland Senior Center (District 2)
  - Head Start Center Renovation Tassafaronga (District 7)
  - West Oakland Senior Center Renovation (District 3)
  - Brookfield Branch Library Phase 2 (District 7)
  - Elmhurst Branch Library Renovation/Remodel (District 7)
  - Hoover Branch Library - Feasibility Study (District x)
  - Main Library - New facility feasibility study (District x/citywide)
  - Main Library - Phase 2 renovation (District x/citywide)
  - Oakland Tool Lending Library (District 1)
  - Brookdale Recreation Center Expansion (District 4)
  - East Oakland Sport Center - Outdoor Pool (District 7)
  - Joaquin Miller Park Cascade (District 4)
  - Lincoln Recreation Center Expansion/Renovation (District 2)
  - Public Restrooms - Concordia (District 2) & Madison Parks (District 6)[A18]
  - San Antonio Recreation Center (District 2)
- Projects out for bid and award:
    - Animal Services Center – Replace HVAC & Energy System (District 5/citywide)
    - Fire Station Renovations at Stations 12 (District 3), 16 (District 2), 10 (District 1), and 15 (District 3)[A19]
    - Allendale Recreation Center Tot Lot (District 4)
  - Projects on hold:
    - West Oakland Branch Library Improvements – Phase 2 (District 3)
    - Arroyo Viejo Recreation Center (District 6)
    - Police Administration Building Feasibility (citywide)
    - West Oakland (District 3) and Asian (District 2) Branch Library Renovations

### *OPW Capacity*

When asked about their limitations to their capacity to implement the projects, and how they might address them, OPW responded with the following:

- Lack of funding for overall citywide Capital Improvement Project planning and specific pre-project planning. A solution may be to allocate funds for preliminary and design scope before approving or committing construction funds.
- Staffing shortage for project and construction management. The Department continues to plan to hire additional staff based on the timing of the next bond issuance.
- High construction costs continue to be a challenge. Staff may need to build in greater contingency in construction funds, which may increase the budget. Staff is also considering developing standardized Capital Improvement Project estimating techniques and database to more accurately reflect Oakland's public project construction market.

The Public Oversight Committee also asked OPW to describe how staff vacancies impacted their ability to implement their projects. OPW reported that the Project and Grants Management Division currently has three project management positions and one Division Manager position vacant and are recruiting for the positions.

OPW construction services also has a staffing shortage of 40 to 45% (up from 15 to 20% reported the previous year). Recruitment is also in progress but there are limited available and willing candidates, and a length civil service hiring process.

In addition, the approved projects and the actual funding availability via measure KK bond projects are not aligned. Bringing on new staff for approved Capital Improvement Projects that are funded through the bond sale can be further aligned to help with efficiency in delivery.

Lastly, the COVID -10 pandemic has slowed down some projects due to work process adjustments and changes and impacts on staff. The current fiscal crisis has put a hiring freeze on positions.

*Community Engagement*

The Public Oversight Committee asked OPW to describe successes and challenges they have had with their community engagement activities. The Capital Improvement Project working group engaged a community organization as a consultant to help them with their community engagement strategy. Strategies included door hangers, training resident organizers, leading Zoom focus group briefings in English and Spanish, and providing support for residents in East Oakland to submit Capital Improvement Project public requests and text surveys.

For details on these projects, please refer to Attachment x for the completed spreadsheet and Attachment x to OPW’s responses to the questionnaire.

To view an interactive map of the project locations, including information of race and ethnicity percentage by tract and average annual income by neighborhood, go to:

<http://oakgis.maps.arcgis.com/apps/webappviewer/index.html?id=151ed66ab1f345dbbf9cedd34d4f6dc2>.

***Housing and Community Development (HCD)***

A total of \$100 million of Measure KK funds was allocated to affordable housing projects and programs, which includes new construction, housing rehabilitation and preservation, site acquisition, 1-4 unit housing programs, and acquisition of transitional housing facilities. Of the total amount, about \$53,286,454 has been spent, and another \$25,979,061 has been committed to projects as of December 31, 2021, which is approximately 79% of the funds. These numbers include administrative costs. Measure KK allows no more than 5% of the affordable housing funds to go towards administrative expenses. These expenses are estimated to be \$xx. A summary of the allocations and expenditures is below:

HOUSING AND COMMUNITY DEVELOPMENT: PROJECT NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & COMMITTED AS OF 1/12/21	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Acquisition and Conversion to Affordable Housing (ACAH)	\$25,108,200	\$18,713,678 (75%)	\$6,394,522

Housing Rehabilitation & Preservation	\$16,292,375	\$10,970,000 (67%)	\$5,322,375
Acquisition of Transitional Housing Facility (ATHF)	\$1,000,000	\$1,000,000 (100%)	\$0
Administration	\$2,599,425	\$2,599,425 (100%)	\$0
<b>TOTALS</b>	<b>\$100,000,000</b>	<b>\$88,283,103 (88%)</b>	<b>\$ 11,716,897</b>

To date, of the bond funds that has been allocated to affordable housing, 87% has been invested in acquisition and rehabilitation, and 13% to new construction.

A total of 1,542 units will be preserved or created. The average Area Median Income (AMI) for all measure KK funded projects is 52.6% AMI, and the average for new construction units is 46.4%. According to the requirements of the bond measure, 20% of all new construction needs to be below 30% AMI. HCD is ensuring compliance of this provision by requiring that at least 20% of new construction units be affordable to households at or below 30% AMI in recent rounds of Notice of Funding Availability. This requirement is also memorialized in the City’s regulatory agreement.

A current breakdown of the units by AMI is below:

AMI	Number of Units	% of Total
<20%	222	14%
21-30%	342	22%
31-50%	396	26%
51-80%	565	37%
81-120%	2	

There are 18 managers’ units.

Other characteristics of the units include:

- 200 (13%) of the units are Single Room Occupancy
- 453 (29%) of the units are for people who are unhoused
- 134 (9%) units are for seniors

Of the 36 projects, HCD staff reported that:

- 15 (42%) are properties where tenants were at high risk of displacement
- 23 (64%) are unoccupied properties, and proposals serving homeless and/or extremely low-income households were prioritized

- 23 (64%) are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing
- For 14 (39%) of the projects, tenant organized prior to the purchase of the property

Of the 361 household that reported racial/ethnic demographic information:

Race/Ethnicity	Number of Households	% of Total
Black	200	51%
White	51	14%
Latinx	33	9%
Asian	19	5%
Other	15	4%
Decline to State	39	11%

Of the 36 projects that have been funded with Measure KK bond funds[A25]:

- 9 have been completed
  - 641 West Grand (District 3)
  - 10320 MacArthur Blvd (District 7)
  - 2515 10th Avenue (District 2)
  - 1810 E. 25th Street (District 2)
  - 812 East 24th Street (District 2)
  - 5940 Hayes Street (District 6)
  - 8020 Hillside Street, 2684 Ritchie Street, and 2735 76th Avenue (District 7)
  - 285 Newton Avenue (District 2)
  - 1233-1253 23rd Avenue and 2285 International Blvd (District 5)
- 11 are under construction
  - 283 13th Street (District 2)
  - 5276 Broadway (District 1)
  - 3300 Hawley Street (District 7)
  - 657 W. MacArthur Blvd (District 1)
  - 1415 Harrison Street (District 3)
  - 3720 Telegraph Ave (District 3)
  - 2600 International Blvd (District 5)
  - 2000 36th Avenue (District 5)
  - 344 13th Street (District 2)
  - 1432 12th Avenue Oakland (District 2)
  - 3268 San Pablo Avenue (District 3)
- 14 are in pre-development
  - 1921 & 2022 36th Avenue (District 5)
  - 7th Street & Campbell Street (District 3)
  - 3801, 3807, 3823, & 3829 Martin Luther King Jr. Way (District 1)
  - 510 21st Street (District 3)
  - 3511 E 12th Street Oakland (District 5)

- 6106-6108 Hilton Street Oakland (District 6)
  - 789 61st Street (District 1)
  - 2242 107th Ave, 5330 Wentworth Ave, and 1709 87th Ave (District 7)
  - 524-530 8th Street (District 3)
  - 6470 MacArthur Boulevard (District 6)
  - (District 7[A26])
  - 430 28th Street (District 3)
  - 2227-2257 International Blvd (District 2)
  - 760 22nd Avenue & 2201 Brush Street (District 3)
- 1 on hold/postponed
    - 814 59th Street (District 1)
  - 1 status unknown
    - 48 5th Avenue (District 2)

### *HCD Capacity*

The Public Oversight Committee asked HCD to describe how staff vacancies impacted their ability to implement their projects. In 2020, the Housing Development Services (HDS) filled four out of six vacant positions, bringing unit staffing from 50% to 85%. The increased staffing, in addition to external consultants, enabled HDS to close numerous loans. The City has instituted a hiring freeze so the HDS is not able to fill the remaining two positions.

### *Community Engagement*

The Committee also asked HCD about resident participation of community engagement processes for the projects. For acquisition and rehabilitation projects, the participation of residents has been mixed. In some cases tenants have been deeply involved in the acquisition. This is particularly true for co-ops and land trusts. However, in other cases, landlords have prohibited buyers from contacting tenants until the acquisition closes. For new construction projects, developers must submit evidence of having held at least one community meeting prior to submitting the Notice of Funding Availability application.

For details on these projects, please refer to Attachment **xx** for the completed spreadsheet and Attachment **xx** to HCD's responses to the questionnaire.

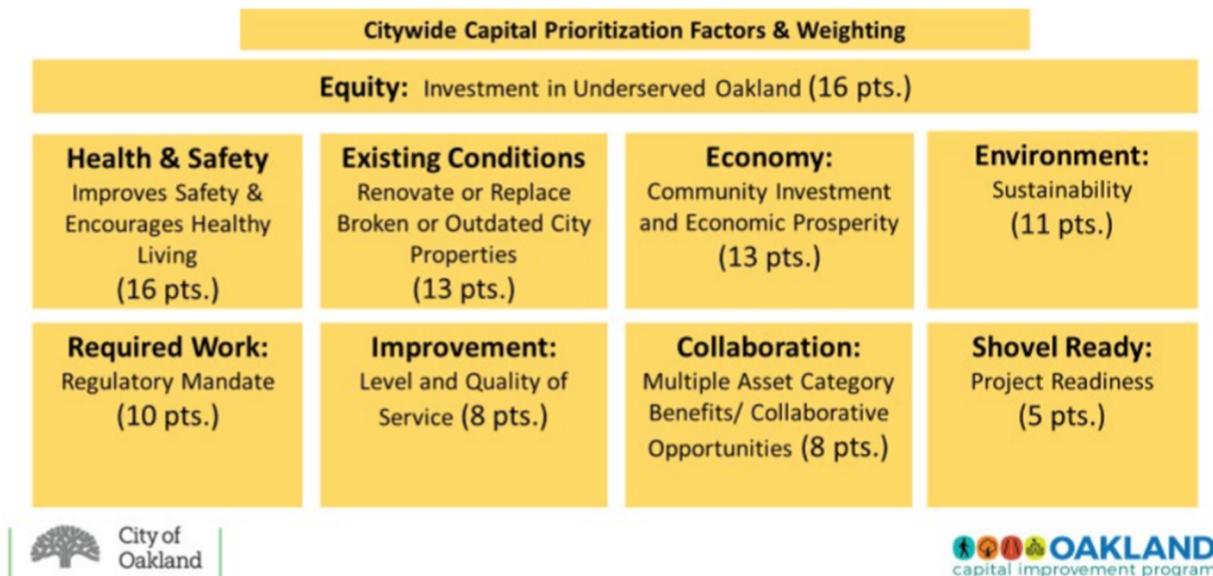

## **SOCIAL EQUITY AND ANTI-DISPLACEMENT**

One of the outcomes the Public Oversight Committee is charged to evaluate, related to the expenditures of the bond proceeds, is social equity and anti-displacement. To begin helping us evaluate the equity impacts of Measure KK funding, the Committee is working with Amanda Fukutome, a UC Berkeley graduate student. She will produce a draft evaluation in June 2021, which will analyze the short-term impacts of Measure KK funding and offer a draft framework for medium and long-term evaluations. The main questions to be answered by the short-term evaluation are: (1) how are investments spatially distributed; (2) who is being impacted by these investments; and (3) how well have the new criteria for identifying Capital Improvement Projects/Street Projects worked? The framework for the medium-term evaluation will offer strategies to evaluate if there have been measurable impacts of investments in

neighborhoods/among residents. And, the framework for the long-term evaluation will offer strategies to evaluate if there have been measurable increases in social equity and any adverse impacts to low-income communities of color from Measure KK funding.

The first tranche of funds was analyzed using the Oakland Equity Index (OEI), a metric developed by City staff for use in measuring equitable distribution of infrastructure projects. Every census block was assigned an OEI score based on the average of percentages of the block population that are minorities, low-income, and youth under 10, respectively. Blocks are then assigned designations of “very low,” “low,” “medium,” “high,” or “very high” disadvantage based on what quintile of census tracts their score places them in. Very high and high quintiles are concentrated in East Oakland and West Oakland while Low and Very Low quintiles are concentrated in hills neighborhoods, North Oakland, and around Lake Merritt.

Since then, the Oakland Public Works and the Department of Transportation conducted a Capital Improvement Program (CIP) prioritization process to incorporate community values and priorities in the CIP process. Over the summer of 2018 they conducted community meetings, outreached to community organizations, and gathered input through an online survey. The nine factors were weighted based on the prioritization results and were used to identify the CIPs that were approved in the FY 2020-2022 budget, which were funded in the second tranche of bond proceeds.

In addition, the Department of Transportation used a new equity paving index to identify priority streets and Housing and Community Development committed their additional funds to preserving affordable housing.

**CONCLUSION**

The City just completed its third year of allocating and spending the KK bonds funds and all three Departments have made progress on the implementation of their projects. Oakland Public Works still lags a little behind in the expenditure of their funds, at 23%, but that is primarily a

result of the nature of their projects, many which require planning and design before renovations or construction can begin, where the majority of the funds will be spent.

The Oversight Committee believes that the City and its residents are beginning to see tangible benefits from the bond funds, such as the repaved streets, improvements in the recreation centers, and an increase in affordable housing units.

However, the COVID-19 pandemic and the City's budget deficit has already slowed down some of the projects due to work process changes and decreased staff capacity due to a hiring freeze. At a minimum, this will likely continue to be the case. There is a concern that additional impacts may include the Departments using some of their fund balance, which could be used for capital projects, to cover operating deficits. A worst case scenario is that the Departments will not be able to use the funds required to issue the third tranche of funding, at a time when they need it the most.

According to the requirements of the bond measure, 20% of all new construction needs to be below 30% AMI. The current average is 46.4% AMI. In order to ensure that bond requirements are met, the Committee recommends that HCD consider increasing their requirement that 20% of new construction be affordable to households at or below 30% AMI. And while not a requirement of the bond funds, a similar goal for acquisition and rehabilitation projects would help more lower-income residents stay in their homes.<sup>[A27]</sup>

On several occasions the Oversight Committee has requested that DOT provide Capital Improvement Scores for Equity and Safety indicators at the corridor level when reporting on the projects funded by the second tranche. Unfortunately, once again the Committee has not received this information. It is difficult to assess that improvements have been implemented effectively and equitably without this detailed information.<sup>[A28]</sup>

The Public Oversight Committee looks forward to sharing the analysis of the short-term equity impacts of Measure KK funding by the UC Berkeley graduate student.

Submitted by:

Ellen Wu  
Chair, Measure KK Public Oversight Advisory Committee

## Fire Department I-Bond/Measure KK Updates

### *Completed Projects:*

- *Roof Replacement (FS 1, 3, 5, & 20) - Completed in May 2020.*
- *Apparatus Doors (FS 3, 5, 6, 7, 15, 17, 24, 25) – Completed June 2020.*
- *Concrete Apron and Hardscapes – Completed September 2020.*
- *Fire Station 12 Renovations – Completed April 30, 2021*

The following projects have started and are in varying phases of planning or design.

- **Fire Station 4** - There is an ongoing search for a feasible site in the FS 4 service area. At the same time, programming needs have been identified and a conceptual design developed for possibly locating a new station at San Antonio Park at the corner of Foothill Ave. and 18<sup>th</sup> Avenue. This potential site is now under environmental review in the Planning Dept. Other sites are also being considered.
- **Fire Station 10** - Revisions to the permit are in progress. Additional design scope was added to include Fire Alerting system and other work requested by OFD. Once permit revisions are approved and internal approvals are completed, staff will advertise the project for construction. FS 10 construction cannot begin until FS 16 is completed and FS16 crew has moved back into their home station.
- **Fire Station 12** - Complete. Staff is working with contractor to close-out the permits. Fire crew from Station 16 moved into FS 12 on May 4. Crew from Fire Station 12 are remaining at the Station 2 (Jack London) until stations 16 and 10 are complete. Station 12 is being used as the quarters for each FS 16 and 10 while their home station is being worked on, one at a time.
- **Fire Station 16:** Notice to Proceed with construction was issued on May 17. Demolition began and first progress meeting held week on 6/1.
- **Fire Station 29 and the Training, Resiliency, Environmental, Community, Complex (TREC com)** - A contract with the selected architectural design team has recently been fully executed. A project kick-off meeting is scheduled for later this month. The team will begin to work on developing the public engagement plan.

## ATTACHMENT C

### Report by Measure KK Public Oversight Committee on Expenditure of First and Second Tranche of Funds June 2021

#### EXECUTIVE SUMMARY

On November 8, 2016, the City of Oakland (the “City”) received voter approval authorizing the City to issue **\$600 million** in general obligation bonds to fund various City infrastructure and affordable housing projects (“Measure KK”). Measure KK requires the creation of the Public Oversight Committee to review financial and operational reports related to the expenditures of bond proceeds and evaluate the impacts and outcomes of such expenditures, including social equity, anti-displacement, and affordable housing in particular.

On August 1, 2017, the City issued the first tranche of general obligation bonds totaling \$117,855,000. The total amount for projects was \$117,585, which is less \$270,000 of the full amount due to expenses associated with the issuance of the bonds. Project funds were allocated for the acquisition and improvements to streets and sidewalks, facilitates, and affordable housing in the FY 2017-2019 budget. On January 21, 2020, the second tranche was issued for \$184,890,000, with the full amount available to fund projects allocated in the FY 2020-2022 budget. The full amount of the bond funds were available because the bonds had premiums that covered the cost of the issuance.

***Of the total funds allocated from Measure KK to date, \$169,359,707 (56%) has been spent and encumbered or committed.***

A summary by Department is below:

DEPARTMENT	FY 2017-2019 & FY 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED OR COMMITTED	FY 2017-2019 & FY 2020-2021 BALANCE REMAINING
Department of Transportation: Streets and Roads (\$350 million)	\$138,330,000	\$66,234,407 (48%)	\$72,095,593
Oakland Public Works: Facilities (\$150 million)	\$63,423,800	\$14,842,197 (23%)	\$48,581,603
Housing and Community Development: Affordable Housing (\$100 million)	\$100,000,000	\$88,283,103 (88%)	\$ 11,716,897

<b>TOTALS</b>	<b>\$301,753,800</b>	<b>\$169,359,707 (56%)</b>	<b>\$132,394,093</b>
---------------	----------------------	----------------------------	----------------------

On December 12, 2017, the Mayor appointed nine (9) members to serve on the Affordable Housing & Infrastructure Public Oversight Committee (the “Public Oversight Committee”) and the appointments were confirmed by City Council on December 18, 2017. (Please refer to Attachment A for a current list of committee members.) The Public Oversight Committee submitted our first report on the status of the expenditures of the funds and the projects to the City of Oakland’s Finance and Management Committee in March 2019. That report can be found at: <https://oakland.legistar.com/LegislationDetail.aspx?ID=3879781&GUID=414E29EA-A319-4BF4-9A72-E148A2EFD708&Options=ID|Text|&Search=measure+kk>. The second report was submitted in March 2020 and can be found at: <https://cao-94612.s3.amazonaws.com/documents/2020.03.30-Measure-KK-APPENDIX-A-I-Bond-Report-FINAL.pdf>.

**BACKGROUND**

On November 8, 2016, more than two-thirds of the qualified voters of the City approved Measure KK authorizing the City to issue general obligation bonds in an amount of **\$600 million** “to improve public safety and invest in neighborhoods throughout Oakland by re-paving streets, which included to remove potholes, rebuilding cracked and deteriorating sidewalks, funding bicycle and pedestrian safety improvements, funding affordable housing for Oaklanders, and providing funds for facility improvements, such as, neighborhood recreation centers, playgrounds and libraries.” Projects to be funded by the \$600 million bond includes the following:

1. Streets and Roads Projects in the amount of \$350 million
  - a. Street paving and reconstruction
  - b. Bicycle and pedestrian improvements; bikeways, sidewalks, paths, stairs, streetscape, curb ramps
  - c. Traffic calming improvements
2. Facilities Projects in the amount of \$150 million
  - a. Fire Facilities (\$40 million)
  - b. Police Facility (\$40 million)
  - c. Libraries (\$15 million)
  - d. Parks, Recreation and Senior Facilities (\$35 million)
  - e. Water, energy and seismic improvements consistent with the City’s Energy and Climate Action Plan (\$20 million)
3. Anti-Displacement and Affordable Housing Preservation Projects in the amount of \$100 million
  - a. Funds may be spent on the acquisition, rehabilitation, or new construction of affordable housing as set forth in the Affordable Bond Law Ordinance.

On August 1, 2017, the City issued \$117,855,000 City of Oakland General Obligation Bonds, Measure KK, Series 2017A-1 and Series 2017A-2 (together the “Bonds”) to provide funds for 1)

street paving and reconstruction; bicycle, pedestrian and traffic calming improvements; construction, purchase, improvement or rehabilitation of City facilities including fire, police, library, parks, recreation, and senior facilities; and water, energy and seismic improvements consistent with the City's Energy and Climate Action Plan, all as set forth in Resolution No. 86773, adopted by the City Council on June 19, 2017, as amended by Resolution Nos. 86815 C.M.S. and 86816 C.M.S., each adopted by the City Council on June 29, 2017 and 2) anti-displacement and affordable housing preservation projects, including the acquisition, rehabilitation, or new construction of affordable housing in accordance with the City's Affordable Housing Bond Law Ordinance and as set forth in Resolution No. 86774 C.M.S. adopted by the City Council on June 19, 2017, as amended by Resolution No. 86814 C.M.S. adopted by the City Council on June 29, 2017.

On February 13, 2020, the City issued \$184,890,000 City of Oakland General Obligation Bonds, Measure KK, Series 2020B-1 and Series 2017B-2 (together the "Bonds") to provide funds for: 1) Street paving, resurfacing and reconstruction; bicycle, pedestrian and traffic calming improvements; and construction, purchase, improvement, or rehabilitation of City facilities including fire, library, parks, recreation, and senior facilities, consistent with the City's FY 2019-21 Capital Improvement Program (CIP) all as set forth in Resolution No. 87981 C.M.S., adopted by the City Council on December 10, 2019, and 2) Anti-displacement and affordable housing preservation programs, including the acquisition, rehabilitation, or new construction of transitional housing and affordable housing for ownership and rent in accordance with the City's Housing Bond Law and as set forth in Resolution No. 87981 C.M.S., adopted by the City Council on December 10, 2019.

Measure KK requires the creation of the Public Oversight Committee to review financial and operational reports related to the expenditure of bond proceeds to confirm that the funds were used in a manner permitted under Measure KK and to evaluate the impacts and outcomes of the bond expenditures on Measure KK's stated goals, including social equity, anti-displacement, and affordable housing. The Public Oversight Committee reports to the City Council.

On December 12, 2017, the Mayor appointed nine (9) members to serve on the Affordable Housing & Infrastructure Public Oversight Committee and the appointments were confirmed by City Council on December 18, 2017. The Public Oversight Committee submitted our first report on the status of the expenditures of the funds and the status of the projects to the City of Oakland's Finance and Management Committee in March 2019. That report can be found at: <https://oakland.legistar.com/LegislationDetail.aspx?ID=3879781&GUID=414E29EA-A319-4BF4-9A72-E148A2EFD708&Options=ID|Text|&Search=measure+kk>. The second report was submitted in March 2020 and can be found at: <https://cao-94612.s3.amazonaws.com/documents/2020.03.30-Measure-KK-APPENDIX-A-I-Bond-Report-FINAL.pdf>.

## **SUMMARY OF ALLOCATED FUNDS**

On August 1, 2017, the City issued the first tranche of general obligation bonds totaling \$117,855,000. The total amount for projects was \$117,585, which is less \$270,000 of the full amount due to expenses associated with the issuance of the bonds. Project funds were allocated for the acquisition and improvements to streets and sidewalks, facilitates, and affordable housing

in the FY 2017-2019 budget. On January 21, 2020, the second tranche was issued for \$184,890,000, with the full amount available to fund projects allocated in the FY 2020-2022 budget. The full amount of the bond funds were available because the bonds had premiums that covered the cost of the issuance.

***Of the total funds allocated from Measure KK to date, \$169,359,707 (56%) has been spent and encumbered or committed.***

Working with the Department of Transportation, Oakland Public Works, and Housing and Community Development, the Public Oversight Committee developed a reporting template and questionnaire to collect data about the bond fund expenditures and status of the projects. Below is a summary of their responses by Department. The completed reporting form and questionnaires are attached.

***Oakland Department of Transportation (OakDOT)***

A total of \$97,730,000 of Measure KK funds was allocated to transportation projects, which includes paving and bicycle street paving, complete streets capital (pedestrian, bicycle, and transit infrastructure), curbs ramps to comply with the Americans with Disabilities Act (ADA), Neighborhood Traffic Calming Program and Safe Routes to School, and sidewalk repairs. Of the total amount, \$27,464,484 has been spent and \$80,225 is encumbered, which is approximately 28% of the total funds allocated. A summary of the allocations and expenditures is below:

TRANSPORTATION: PROGRAM NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED AS OF 12/21/20	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Paving and Bike Paving	\$75,250,000	\$24,007,886 (32%)	\$51,242,114
Complete Streets Capital	\$13,480,000	\$1,953,340 (14%)	\$11,526,660
ADA Curb Ramps	\$4,000,000	\$492,374 (12%)	\$3,507,626
Neighborhood Traffic Calming/Safe Routes to School	\$3,000,000	\$139,301 (5%)	\$2,860,699
Sidewalk Repairs	\$2,000,000	\$951,809 (48%)	\$1,048,191
<b>TOTALS</b>	<b>\$97,730,000</b>	<b>\$27,544,709 (28%)</b>	<b>\$70,185,291</b>

### *Paving and Bike Paving*

In 2019, DOT developed a [3-year paving plan policy](#), which used street condition, population density, and equity factors to identify the local streets to be paved. This plan was used to allocate the second tranche of paving funds (\$75,250,000) in the FY 2019-21 budget. DOT distributed funding for local streets by the share of underserved populations and share of local street miles in poor condition. Furthermore, for the FY 2021-23 budget, improvements were made to the scoring criteria, which included adding equity as a subfactor under collaboration, existing conditions, environment, health and safety, and improvement and economy factors. A summary of the updates to the scoring criteria can be found in the FY 2021-23 Proposed Capital Improvement Program book starting on page 9:

<https://cao-94612.s3.amazonaws.com/documents/FY-21-23-CIP-Book-Revised-5.13.21.pdf>.

According to DOT's report, there has been no delays in paving projects. The Public Oversight Committee would like to continue to highlight that the bond funds can **only be used for resurfacing, not for maintenance activities, such as potholing.**

### *Complete Streets*

Measure KK funding was used specifically to fund the required local match for grant supported projects, which increased Oakland's competitiveness in securing outside sources. The Complete Streets funding has leveraged \$83,982,540 of other funding. Out of 30 Complete Streets projects:

- 1 project is closing out
- 11 are under construction
- 6 are in the design phase
- 1 is in planning
- 10 are in the bid/award phase
- 1 project is on hold

### *Safe Routes to Schools*

DOT reported that there have been delays in Safe Routes to Schools projects. Out of the 15 locations allocated funding from the first and second tranche:

- 2 schools are in the bid/award phase
- 7 schools are in the planning phase
- 3 schools are in the design phase
- 3 schools are in construction

The delays are a result of limited staff time in Safe Streets Division due to the implementation of Shelter-in-Place social distancing programs and a citywide hiring freeze.

### *DOT Capacity*

When asked about limitations to their capacity to implement the projects, DOT responded that their constraint continues to be staffing and access to consultants to complete project designs. In addition, new initiatives in response to COVID-19 shelter-in-place orders have drawn from the department's overall resources, and demand extensive engineering to ensure the safe and responsible mixing of transportation modes. Additionally, the City of Oakland has instituted a hiring freeze due to the pandemic, which has affected vacancies and hiring efforts across teams.

DOT also highlighted that the extremely high cost of inflation of capital projects have been a challenge, as project bids are consistently above cost estimates which results in acquiring additional capital.

*Community Engagement*

The Oversight Committee asked the Department to describe their community engagement activities. DOT reported that typically the community is involved at the beginning of the project to develop conceptual frameworks and in the majority of cases most of the stakeholders end up supporting the final project scope with an understanding of the issues or compromises required.

For details on these projects, please refer to Attachment A, Measure KK 2020 Annual Report, and Attachment B, Neighborhood Traffic Calming – Safe Routes to Schools Program, for the completed spreadsheets, and Attachment C, Questions Regarding Expenditure of Measure KK Funds, to DOT and OPW’s responses to the questionnaire.

To view an interactive map of the project locations, including the Oakland Equity Index (OEI) demographics and score by project go to:

<http://oakgis.maps.arcgis.com/apps/webappviewer/index.html?id=c9353519c32644d5b362eea1794686f0>.

For more information about the FY 2021-23 capital improvement programs, refer to the FY 2021-23 Proposed Capital Improvement Program book:

<https://cao-94612.s3.amazonaws.com/documents/FY-21-23-CIP-Book-Revised-5.13.21.pdf>.

***Oakland Public Works (OPW)***

A total of \$63,423,800 of Measure KK funds was allocated to 48 public works projects. Of the total amount, \$14,027,301 of the funds have been expended, and \$881,899 have been encumbered as of February 5, 2021, which is approximately 23% of the funds. These funds were used to leverage an additional \$23,799,240 of funding from other sources.

A summary of the allocations and expenditures is below:

PUBLIC WORKS: PROGRAM NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & ENCUMBERED AS OF 02/05/2021	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Fire Department Facilities	\$13,237,500	\$4,956,481 (37%)	\$8,281,019
Police Department Facilities	\$200,000	\$71,152 (36%)	\$128,848
Library and Museum Facilities	\$14,770,000	\$982,808 (7%)	\$13,787,192

Human Services Facilities	\$6,612,500	\$2,011,177 (30%)	\$4,601,323
Parks, Recreation, and Youth Development Facilities	\$25,603,800	\$8,370,716 (33%)	\$17,233,084
Animal Services	\$3,000,000	\$260,738 (9%)	\$2,739,262
<b>TOTALS</b>	<b>\$63,423,800</b>	<b>\$16,653,072 (26%)</b>	<b>\$46,770,728</b>

Below is a status of the 48 projects:

- Completed:
  - Head Start Recreation Center Arroyo Viejo (District 6)
  - Head Start Recreation Center Brookfield (District 4)
  - Head Start Playgrounds at Arroyo Viejo (District 6), Brookfield (District 4), Manzanita (District 5), and San Antonio (District 2)
  - Rainbow Recreation Center (District 6)
  - Oakland Fire Department Roof Assessment & Replacement (Stations 1 (District 3), 3 (District 3), 5 (District 3), and 20 (District 7))
  - Oakland Fire Department Telescopic Apparatus Door Replacements (Stations 3 (District 3), 5 (District 3), 6 (District 4), 7 (District 1), 15 (District 3), 17 (District 4), 24 (District 4), & 25 (District 4))
  - Tassafaronga Gym Waterproofing (District 7)
  - The Lions Pool in Dimond Park (District 4)
  - Head Start Recreation Centers Manzanita (District 5)
  - Dimond Park - Tennis Courts (District 4)
- Post-construction:
  - Oakland Fire Department Apron & Hardscape (CW Stations #21, 16, 8, 5, 19, 13, 10 and 17)
  - Ballfields Wiring Hazard Mitigation (Golden Gate (District 1), Curt Flood (District 4), Tassafaronga (District 7), and Lowell (District 3))
- Design Phase:
  - Oakland Animal Services Center (District 5/citywide)
  - Henry Robinson Multi-services Center (District 2)
  - Caldecott Trailhead Improvements (District 1)
  - Digital Arts & Culinary Academy Phase 2 Renovation (District 6)
  - Holly Mini Park (District 7)
  - Madison Park Irrigation Upgrade/Repair (District 2)
  - Mosswood Community Center (District 3)
  - Main Library Remodel (District 2/citywide)
  - Branch Library Renovations Brookfield (District 7)

- Planning phase:
  - Fire Station #29 New Station & Training Complex (District 6)
  - Fire Station #4 (District 2)
  - Downtown Oakland Senior Center (District 2)
  - Head Start Center Renovation Tassafaronga (District 7)
  - West Oakland Senior Center Renovation (District 3)
  - Brookfield Branch Library Phase 2 (District 7)
  - Elmhurst Branch Library Renovation/Remodel (District 7)
  - Hoover Branch Library - Feasibility Study (District 3)
  - Main Library - New facility feasibility study (District 2/citywide)
  - Main Library - Phase 2 renovation (District 2/citywide)
  - Oakland Tool Lending Library (District 1)
  - Brookdale Recreation Center Expansion (District 4)
  - East Oakland Sport Center - Outdoor Pool (District 7)
  - Joaquin Miller Park Cascade (District 4)
  - Lincoln Recreation Center Expansion/Renovation (District 2)
  - Public Restrooms - Concordia (District 6) & Madison Parks (District 2)
  - San Antonio Recreation Center (District 2)
  
- Projects out for bid and award:
  - Animal Services Center – Replace HVAC & Energy System (District 5/citywide)
  - Fire Station Renovations at Stations 12 (District 2), 16 (District 5), 10 (District 2), and 15 (District 3)
  - Allendale Recreation Center Tot Lot (District 4)
  
- Projects on hold:
  - West Oakland Branch Library Improvements – Phase 2 (District 3)
  - Arroyo Viejo Recreation Center (District 6)
  - Police Administration Building Feasibility (citywide)
  - West Oakland (District 3) and Asian (District 2) Branch Library Renovations

### *OPW Capacity*

When asked about their limitations to their capacity to implement the projects, and how they might address them, OPW responded with the following:

- Lack of funding for overall citywide Capital Improvement Project planning and specific pre-project planning. A solution may be to allocate funds for preliminary and design scope before approving or committing construction funds.
- Staffing shortage for project and construction management. The Department continues to plan to hire additional staff based on the timing of the next bond issuance.
- High construction costs continue to be a challenge. Staff may need to build in greater contingency in construction funds, which may increase the budget. Staff is also considering developing standardized Capital Improvement Project estimating techniques and database to more accurately reflect Oakland's public project construction market.

The Public Oversight Committee also asked OPW to describe how staff vacancies impacted their ability to implement their projects. OPW reported that the Project and Grants Management Division currently has three project management positions and one Division Manager position vacant and are recruiting for the positions.

OPW construction services also has a staffing shortage of 40 to 45% (up from 15 to 20% reported the previous year). Recruitment is also in progress but there are limited available and willing candidates, and a length civil service hiring process.

In addition, the approved projects and the actual funding availability via measure KK bond projects are not aligned. Bringing on new staff for approved Capital Improvement Projects that are funded through the bond sale can be further aligned to help with efficiency in delivery. Budgeting for new projects and staff occurs during the two year budget cycle. However, bond sales occur after the budget is passed/amended. Therefore, the funds for new projects and staff are not available until the bond is sold. Pre-authorization to fund projects and staff at the time the budget is approved, prior to the bond sale, would help to move newly approved projects forward directly after the budget is passed.

Lastly, the COVID -10 pandemic has slowed down some projects due to work process adjustments and changes and impacts on staff. The current fiscal crisis has put a hiring freeze on positions.

#### *Community Engagement*

The Public Oversight Committee asked OPW to describe successes and challenges they have had with their community engagement activities. The Capital Improvement Project working group engaged a community organization as a consultant to help them with their community engagement strategy. Strategies included door hangers, training resident organizers, leading Zoom focus group briefings in English and Spanish, and providing support for residents in East Oakland to submit Capital Improvement Project public requests and text surveys.

For details on these projects, please refer to Attachment D, Measure KK – Public Works Department Project Report, for the completed spreadsheet and Attachment C, Questions Regarding Expenditure of Measure KK Funds, for DOT and OPW’s responses to the questionnaire. Refer to Attachment E for a sample of the Capital Improvement Program Public Request Form and Attachment F for a sample of the Capital Improvement Program Department Project Request Worksheet.

To view an interactive map of the project locations, including information of race and ethnicity percentage by tract and average annual income by neighborhood, go to:

***Housing and Community Development (HCD)***

A total of \$100 million of Measure KK funds was allocated to affordable housing projects and programs, which includes new construction, housing rehabilitation and preservation, site acquisition, 1-4 unit housing programs, and acquisition of transitional housing facilities. Of the total amount, about \$55,342,492 has been spent, and another \$32,940,611 has been committed to projects as of January 10, 2021, which is approximately 88% of the funds. These numbers include administrative costs. Measure KK allows no more than 5% of the affordable housing funds to go towards administrative expenses. These expenses are estimated to be \$5,000,000. A summary of the allocations and expenditures is below:

HOUSING AND COMMUNITY DEVELOPMENT: PROJECT NAME	FY 2017-2019 & 2020-2021 FUNDING ALLOCATED	AMOUNT SPENT & COMMITTED AS OF 1/12/21	FY 2017-2019 & 2020-2021 BALANCE REMAINING
Acquisition and Conversion to Affordable Housing (ACAH)	\$30,450,575	\$24,056,053 (79%)	\$6,394,522
Housing Rehabilitation & Preservation	\$25,580,375	\$20,258,000 (79%)	\$5,322,375
New Construction	\$6,319,900	\$6,319,900 (100%)	\$0
Acquisition of Transitional Housing Facility (ATHF)	\$15,000,000	\$15,000,000 (100%)	\$0
Site Acquisition Program	\$15,649,150	\$15,649,150 (100%)	\$0
1-4 Unit Housing Program	\$1,500,000	\$1,500,000 (100%)	\$0
Accessory Dwelling Units	\$500,000	\$500,000	\$0
Administration	\$5,000,000	\$5,000,000 (100%)	\$0
<b>TOTALS</b>	<b>\$100,000,000</b>	<b>\$88,283,103 (88%)</b>	<b>\$ 11,716,897</b>

To date, of the bond funds that has been allocated to affordable housing, 87% has been invested in acquisition and rehabilitation, and 13% to new construction. The average Area Median Income (AMI) for all measure KK funded projects is 52.6% AMI.

### **Acquisition and Conversion to Affordable Housing**

There are a total of 13 projects being funded for acquisition and conversion. Below are some characteristics of these projects.

The development status of the projects are:

- 4 have been completed
  - 10320 MacArthur Blvd (District 7)
  - 2515 10th Avenue (District 2)
  - 1810 E. 25th Street (District 2)
  - 812 East 24th Street (District 2)
- 2 under construction
  - 1432 12th Avenue Oakland (District 2)
  - 2000 36th Avenue (District 5)
- 5 are in pre-development
  - 1921 & 2022 36th Avenue (District 5)
  - 524-530 8th Street (District 3)
  - 6106-6108 Hilton Street Oakland (District 6)
  - 6470 MacArthur Boulevard (District 6)
  - 2242 107th Ave, 5330 Wentworth Ave, and 1709 87th Ave (District 7)
- 1 is on hold: 814 59th Street (District 1)
- 1 project's status is unknown: 48 5th Avenue (District 2)

Of the 13 projects, there are 253 units:

- 10 (4%) Extremely Low-Income (21-30% AMI)
- 238 (94%) Low-Income (51-80% AMI)
- 5 Manager Units
- 48 units are Single Room Occupancy

HCD staff reported that:

- 11 (85%) are properties where tenants were at high risk of displacement
- 12 (92%) are unoccupied properties, and proposals serving homeless and/or extremely low-income households were prioritized
- 10 (77%) are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing
- For 9 (69%) of the projects, tenant organized prior to the purchase of the property

Of the 28 households that reported racial/ethnic demographic information:

Race/Ethnicity	Number of Households	% of Total
Black	6	21%
White	4	14%
Latinx	11	39%
Asian	0	0%
Other	1	0.04%
Decline to State	6	21%

### Housing Rehabilitation & Preservation

There are a total of 6 projects being funded for rehabilitation and preservation. Below are some characteristics of these projects.

The development status of the projects are:

- 4 are under construction
  - 344 13th Street (District 2)
  - 283 13th Street (District 2)
  - 2600 International Blvd (District 5)
  - 1415 Harrison Street (District 3)
- 2 are in pre-development
  - 510 21st Street (District 3)
  - 430 28th Street (District 3)

Of the 6 projects, there are 401 units:

- 25 (6%) Extremely Low-Income (<20% AMI)
- 79 (20%) Extremely Low-Income (21-30% AMI)
- 170 (42%) Very Low-Income (31-50% AMI)
- 123 (31%) Low-Income (51-80% AMI)
- 4 Manager Units
- 104 of the units are for unsheltered people

HCD staff reported that:

- 1 (17%) property is where tenants were at high risk of displacement
- 4 (67%) are unoccupied properties, and proposals serving homeless and/or extremely low-income households were prioritized
- 4 (67%) are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing

Of the 278 households that reported racial/ethnic demographic information:

Race/Ethnicity	Number of Households	% of Total
Black	171	62%
White	42	15%
Latinx	16	6%
Asian	8	3%
Native American/Alaskan Native	2	0.7%
Native Hawaiian and Other Pacific Islander	1	0.4%
Other	10	4%
Decline to State	28	10%

### New Construction

There are a total of 10 projects being funded for new construction. Below are some characteristics of these projects.

The development status of the projects are:

- 1 project is completed: 1233-1253 23rd Avenue and 2285 International Blvd (District 5)
- 3 projects are under construction
  - 3268 San Pablo Avenue (District 3)
  - 657 W. MacArthur Blvd (District 1)
  - 3300 Hawley Street (District 7)
- 6 projects are in pre-development
  - 7th Street & Campbell Street (District 3)
  - 2227-2257 International Blvd (District 2)
  - 3511 E 12th Street Oakland (District 5)
  - 3801, 3807, 3823, & 3829 Martin Luther King Jr. Way (District 1)
  - 760 22nd Avenue & 2201 Brush Street (District 3)
  - 95th & International (District 7)

According to the requirements of the bond measure, 20% of all new construction needs to be below 30% AMI and currently about 45% of new construction units are below 30% AMI. In addition, HCD is ensuring compliance of this provision by requiring that at least 20% of new construction units be affordable to households at or below 30% AMI in recent rounds of Notice of Funding Availability. This requirement is also memorialized in the City's regulatory agreement.

Of the 10 projects, there are 714 units:

- 197 (28%) Extremely Low-Income (<20% AMI)
- 121 (17%) Extremely Low-Income (21-30% AMI)
- 206 (29%) Very Low-Income (31-50% AMI)
- 185 (26%) Low-Income (51-80% AMI)
- 2 (0.3%) Moderate-Income (81-120% AMI)
- 6 Manager Units

Of the 714 units:

- 10 are for HIV/AIDS residents
- 197 are for the unsheltered
- 9 are for people with disabilities
- 13 are for veterans

HCD staff reported that 4 (40%) of the projects are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing

Of the 36 households that reported racial/ethnic demographic information:

Race/Ethnicity	Number of Households	% of Total
Black	18	50%
White	1	3%
Latinx	2	6%
Asian	10	28%
Native American/Alaskan Native	1	3%
Other	3	8%
Decline to State	1	3%

### **Acquisition of Transitional Housing Facility**

There are a total of 3 projects being funded for acquisition of transitional housing facility. Below are some characteristics of these projects.

The development status of the projects are:

- 1 project is completed: 641 West Grand (District 3)
- 2 projects are under construction
  - 5276 Broadway (District 1)
  - 3720 Telegraph Ave (District 3)

Of the 3 projects, there are 155 units:

- 132 (%) Extremely Low-Income (21-30% AMI)
- 20 (%) Very Low-Income (31-50% AMI)
- 3 Manager Units

Of the 155 units:

- 152 are for the unsheltered
- 21 are for veterans

HCD staff reported that 1 (33%) of the projects are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing

**1-4 Unit Housing Program**

There are a total of 4 projects being funded for acquisition and conversion with 1-4 units. Below are some characteristics of these projects.

The development status of the projects are:

- 3 have been completed
  - 285 Newton Avenue (District 2)
  - 8020 Hillside Street, 2684 Ritchie Street, and 2735 76th Avenue (District 7)
  - 5940 Hayes Street (District 6)
- 1 is in pre-development
  - 789 61st Street (District 1)

Of the 4 projects, there are 19 units and they are low-income at 51-80% AMI

HCD staff reported that:

- 3 (75%) are properties where tenants were at high risk of displacement
- 4 (100%) are unoccupied properties, and proposals serving homeless and/or extremely low-income households were prioritized
- 4 (100%) are properties acquired by a permanently affordable community land trust, permanently affordable housing cooperative, and/or will be operated as permanently supportive housing
- For 4 (100%) of the projects, tenant organized prior to the purchase of the property

Of the 19 households that reported racial/ethnic demographic information:

Race/Ethnicity	Number of Households	% of Total
Black	5	26%
White	4	21%
Latinx	4	21%
Asian	1	0.05%
Other	1	0.05%
Decline to State	4	21%

*HCD Capacity*

The Public Oversight Committee asked HCD to describe how staff vacancies impacted their ability to implement their projects. In 2020, the Housing Development Services (HDS) filled four out of six vacant positions, bringing unit staffing from 50% to 85%. The increased staffing, in addition to external consultants, enabled HDS to close numerous loans. The City has instituted a hiring freeze so the HDS is not able to fill the remaining two positions.

### *Community Engagement*

The Committee also asked HCD about resident participation of community engagement processes for the projects. For acquisition and rehabilitation projects, the participation of residents has been mixed. In some cases tenants have been deeply involved in the acquisition. This is particularly true for co-ops and land trusts. However, in other cases, landlords have prohibited buyers from contacting tenants until the acquisition closes. For new construction projects, developers must submit evidence of having held at least one community meeting prior to submitting the Notice of Funding Availability application.

For details on these projects, please refer to Attachment G for the completed spreadsheet and Attachment H to HCD's responses to the questionnaire. Attachment I is a Project Map.

### **SOCIAL EQUITY AND ANTI-DISPLACEMENT**

One of the outcomes the Public Oversight Committee is charged to evaluate, related to the expenditures of the bond proceeds, is social equity and anti-displacement. To begin helping us evaluate the equity impacts of Measure KK funding, the Committee is working with Amanda Fukutome, a UC Berkeley graduate student. She will produce a draft evaluation in June 2021, which will analyze the short-term impacts of Measure KK funding and offer a draft framework for medium and long-term evaluations. The main questions to be answered by the short-term evaluation are: (1) how are investments spatially distributed; (2) who is being impacted by these investments; and (3) how well have the new criteria for identifying Capital Improvement Projects/Street Projects worked? The framework for the medium-term evaluation will offer strategies to evaluate if there have been measurable impacts of investments in neighborhoods/among residents. And, the framework for the long-term evaluation will offer strategies to evaluate if there have been measurable increases in social equity and any adverse impacts to low-income communities of color from Measure KK funding.

The first tranche of funds was analyzed using the Oakland Equity Index (OEI), a metric developed by City staff for use in measuring equitable distribution of infrastructure projects. Every census block was assigned an OEI score based on the average of percentages of the block population that are minorities, low-income, and youth under 10, respectively. Blocks are then assigned designations of "very low," "low," "medium," "high," or "very high" disadvantage based on what quintile of census tracts their score places them in. Very high and high quintiles are concentrated in East Oakland and West Oakland while Low and Very Low quintiles are concentrated in hills neighborhoods, North Oakland, and around Lake Merritt.

Since then, the Oakland Public Works and the Department of Transportation conducted a Capital Improvement Program (CIP) prioritization process to incorporate community values and priorities in the CIP process. Over the summer of 2018 they conducted community meetings, outreached to community organizations, and gathered input through an online survey. The nine factors were weighted based on the prioritization results and were used to identify the CIPs that were approved in the FY 2020-2022 budget, which were funded in the second tranche of bond proceeds.

In addition, in 2019 the Department of Transportation used a new equity paving index to identify priority streets and most recently for the FY 2021-23 budget, DOT made improvements to the scoring criteria which included adding equity as a subfactor under the collaboration, existing conditions, environment, health and safety, improvement and economy factors. A summary of the updates to the scoring criteria can be found in the FY 2021-23 Proposed Capital Improvement Program book starting on page 9: <https://cao-94612.s3.amazonaws.com/documents/FY-21-23-CIP-Book-Revised-5.13.21.pdf>. The Committee also asked DOT and OPW how the CIP prioritization process is working to achieve social equity, which can be found in Attachment C, Questions Regarding Expenditure of Measure KK Funds.

The Committee also wants to highlight that Housing and Community Development committed their additional funds to preserving affordable housing.

**CONCLUSION**

The City just completed its third year of allocating and spending the KK bonds funds and all three Departments have made progress on the implementation of their projects. Oakland Public Works still lags a little behind in the expenditure of their funds, at 23%, but that is primarily a result of the nature of their projects, many which require planning and design before renovations or construction can begin, where the majority of the funds will be spent.

The Oversight Committee believes that the City and its residents are beginning to see tangible benefits from the bond funds, such as the repaved streets, improvements in the recreation centers, and an increase in affordable housing units.

However, the COVID-19 pandemic and the City’s budget deficit has already slowed down some of the projects due to work process changes and decreased staff capacity due to a hiring freeze. At a minimum, this will likely continue to be the case. There is a concern that additional impacts

may include the Departments using some of their fund balance, which could be used for capital projects, to cover operating deficits. A worst case scenario is that the Departments will not be able to use the funds required to issue the third tranche of funding, at a time when they need it the most. Collectively, the Departments have three years from the issuance of the bond to spend 85% of the funds. This does not include encumbered funds.

The Affordable Housing & Infrastructure (I-Bond) Public Oversight Committee deeply appreciates the time and commitment of the Department of Housing and Community Development, Public Works Department (OPW) and Department of Transportation (OakDOT) in supporting the lives of Oaklanders. We are consistently impressed and commend the effectiveness and resilience of these departments during times of compounding pressures and limited resourcing. We hope to continue to support and elevate the work of these departments in the coming years. It is also incumbent upon this Committee to share our vision for the impact we hope to see after the full expenditure of the \$600 million in general obligation bonds to fund City infrastructure and affordable housing projects.

Our vision is firmly rooted in equity. As a Committee we serve to acknowledge the inequities of past governmental action and inactions that have left Black, Indigenous and people of color communities unduly burdened and vulnerable to the heightened impact of the current pandemic and economic crisis and compounding effects of climate change. Our vision is to invest the \$600 million in taxpayer dollars in service of current residents, so that they may reap the benefits of these capital investments as opposed to being forced out due to market pressures. We seek to have these funds reflect an equitable investment in Oakland's Black community, particularly West Oakland and deep East Oakland, especially in areas most impacted by traffic violence resulting in the unnecessary deaths of seniors, children, and women. We hope that Departments will direct more than project funds, but a deeper empathy and compassion toward neighborhoods most in need to ensure they receive solutions designed with them and for them, for "those closest to the problem are closest to the solution." We believe robust community engagement and collaboration as critically important in having a significant positive impact in ensuring Oaklanders thrive. This Committee aspires to continue to promote the high-quality and compassionate work of city staff in creating a more equitable and resilient Oakland for generations to come.

EnCompass Academy (Woodland Elementary School)	TBD	Planning	TBD - in planning phase, currently evaluating potential treatments with community stakeholders
Lincoln Elementary School	TBD	Planning	TBD - in planning phase, currently evaluating potential treatments with community stakeholders
Martin Luther King Jr. Elementary School	TBD	Planning	TBD - in planning phase, currently evaluating potential treatments with community stakeholders
Oakland International High School	TBD	Planning	TBD - in planning phase, currently evaluating potential treatments with community stakeholders

<i>Current Estimated Project Costs (includes \$700k additional contingency)</i>	\$ 6,900,000
<i>Measure KK Received to Date</i>	\$ 3,700,000
<i>Other fund contributions (ATP, paving program, VRF)</i>	\$ 2,100,000

## ATTACHMENT C

### Questions Regarding Expenditure of Measure KK Funds

#### OakDOT

##### Top five scores not funded from the last CIP are:

- Plaza de la Fuente (Fruitvale BART) – 74/100
  - Plaza de la Fuente will improve access for people walking and cycling to the Fruitvale Transit Village, the existing BART Station and AC Transit bus transfer facility, as well as various commercial, medical, social, and educational destinations in the Fruitvale District. It will improve pedestrian access from these destinations to the future East Bay BRT station on International Boulevard and will close a gap for people cycling to and through the transit-oriented area.
- Pedestrian Lighting Installation – 69.5/100
  - This project will install pedestrian lighting in locations with high pedestrian traffic/security concerns
- Adeline Safety Improvements – 69.5/100 (CIP Public request)
  - This project will install bulbouts, curb ramps, crosswalk enhancements, traffic signal upgrades at 8 signalized intersections and 4 non-signalized intersections.
- East Bay Greenway (Final Segment) – 69/100
  - This project will complete a multi-use pathway under or alongside BART tracks from Fruitvale to San Leandro Border
- MLK Road Diet – 68.5/100 (CIP Public request)
  - This project will implement a road diet on MLK Jr Way between 52nd and Adeline, to create space for bike lanes, transit lanes, wider sidewalks, or other reuses of road space preferred by the community. This will create gateways on each end of the project along MLK with public art, signage, decorative crosswalks, etc, which will highlight local businesses and showcase the local history of the neighborhood.

#### 1. Please describe how well you think the CIP prioritization process is working to achieve social equity.

During the FY19-21 CIP Community Engagement Phase I, the CIP Working Group (CIPWG), composed of OPW and DOT staff, learned about the lack of representation in voices from Black and Latinx Oaklanders from the over 1,300 survey responses. This was addressed by statistically weighting their survey inputs higher than those for White Oaklanders. Two key highlights from the new CIP prioritization process were equity becoming the most important factor out of the nine factors for prioritizing capital projects and, allowing community members to submit CIP project requests. This in and of itself is helping to achieve a more participatory and equitable CIP prioritization process. During the FY19-21 CIP Community Engagement Phase II, community members submitted a total of 316 requests for citywide capital projects, and the CIPWG identified a geographic gap in capital project requests in deep East Oakland.

These findings from the FY19-21 CIP cycle informed the community engagement during the FY21-23 CIP, which is currently in progress. The CIPWG worked with a Community-Based Organization, InAdvance, as the main consultant leading and guiding our community engagement strategy. In collaboration with CIPWG members, InAdvance led preparatory

workshops, supported project submittals, and created awareness and understanding around how capital projects impact Oaklanders living in underrepresented communities. OakDOT and InAdvance also solicited more detail from community members regarding capital projects, helping community requests to score more highly and better equipping staff to assess capital requests internally.

Additionally, the CIP nine prioritization factors provide the framework for a robust project ranking system that is heavily weighted toward equity and results in recommendations for funding allocation. The equity factor accounts for 16 points out of 100, one of the highest along with the health and safety factor. Not only equity is considered as a standalone factor, it is also a subfactor under the six out of the nine factors, as revised in this current CIP cycle. Equity is now a subfactor under the collaboration, existing conditions, environment, health and safety, improvement and economy factors. Capital projects that ranked high in equity factors and subfactors were recommended under the FY 2019-21 Adopted CIP, demonstrating how well the prioritization process is working to advance equity. In DOT, Measure KK is used primarily for the *Paving Program*, which scores above 70 out of 100 in the CIP prioritization process. Measure KK also funds many projects in the *Complete Streets Capital Program*. In both tranches of Measure KK funding, this source is used specifically to fund the required local match for grant supported projects, providing critical support while also increasing Oakland's competitiveness in securing outside sources. Measure KK funds allow for the capacity to support design work on high priority capital projects, ensuring projects can be more competitive for construction grants. In addition, OakDOT prioritizes projects with high CIP scores for the Complete Streets Capital Program.

OakDOT continues to evaluate equity in CIP prioritization, and will share results from the FY 21-23 CIP cycle as they become available. The City is also undertaking an equity analysis as part of the FY 21-23 budget cycle.

**2. What is limiting your capacity to implement the projects? How do you plan to address these issues?**

Our limiting capacity continues to be staffing and access to consultants to complete project designs and progress towards construction. An additional limitation has been the high cost inflation of capital projects, in which project bids are consistently well above engineering cost estimates, and thus require additional capital. When we cannot secure additional funding, we value engineer projects and/or use internal sources. In addition, the City now has a full slate of approved on-call consultants in all disciplines that already assist in project delivery. A major success has been the approval of two on-call construction contracts for paving, as well as the ability for the City Administrator to award \$35 million in paving contracts without returning to Council. This has allowed us to quickly execute contracts for projects going into construction this fall. Staffing limitations, which is required to complete in-house design as well as to supervise outside consultants, is discussed further below.

Funding availability for paving could be/has been a limitation and we would like to address this by ensuring next tranche. There are limitations with the timing to sell the bond associated

with the city's overall budget if availability to sell debt is compromised. Also, staff can work on projects until the Measure KK bond is sold.

**3. Please describe how staff vacancies have impacted your ability to implement the programs and spend the funds. How has COVID-19 impacted your capacity to implement the funded programs and delivery of projects? How long have these positions been vacant**

Staff vacancies and retirements continue to impact OakDOT's ability to move projects forward. In response to COVID-19 Shelter-in-Place orders, the agency has implemented several initiatives to support social distancing and placemaking. While these programs have been successful, they also draw from the department's overall resources, and demand extensive engineering to ensure the safe and responsible mixing of transportation modes. Additionally, the City of Oakland has instituted a hiring freeze due to the pandemic, which has affected vacancies and hiring efforts across teams.

The following are some successes and updates for 2020 that OakDOT undertook to address vacancies:

- The Transportation Manager for the Safe Streets Division has been filled.
- A supervising transportation engineer was hired to lead a new team— Major Corridors and Signals—which will lead intersection improvement work.
- Assistant Engineers are now recruited in a rolling basis, given the ongoing challenges to recruit for this classification.
- Only one transportation planning classification is now vacant. In the past two years, OakDOT hired three permanent Senior Transportation Planners, five Transportation Planner 3's, five Transportation Planner 2's, and two Planner 1's. The Parking and Mobility Team also filled two ELDE, grant-funded Transportation Planner 2 positions.
- Several transportation engineer positions are filled, reducing the previous 50% vacancy rate under this classification.
- OakDOT continues to work closely with HR and City Administrator to prioritize filling high impact classifications.

**4. What do you anticipate might be the impact of the city's budget deficit on the implementation of the funded programs and delivery of the projects?**

- The hiring freeze in place means that vacancies in project delivery cannot be filled in the near-term, limiting staff resources to deliver projects in a timely manner.
- Existing and projected fund deficits mean that the department's fund balance, which could be used for capital projects, may be needed to cover operating deficits.
- Without a balanced FY21 budget, the City may not be able to issue a third tranche of Measure KK.
- The City recently instructed all departments to release temporary and part-time staff, which also impacts OakDOT's ability to deliver projects in a timely manner.

**5. How are decisions made about what parts of the project goes to an external consultant versus city staff? What factors are being considered?**

The primary considerations are staff capacity, vacancies and technical ability. Staff can only work on a finite number of projects at one time (for example, the Complete Streets team totals seven engineers, each of which handles at least 5 projects at a time), and it is sometimes more efficient to solicit consultants who can staff up or down more easily to accomplish this work. Management typically seeks the greatest efficiencies in completing necessary work and accounts for the time to oversee and guide consultant work. For Complete Streets Capital Projects, management also considers the complexities behind projects, the number of stakeholders involved, and the additional funding agencies involved, when applicable. For instance, federally funded projects are mostly managed in-house due to the complexity of project administration.

**6. What community engagement activities have worked well and what challenges have you encountered with community engagement?**

- Capital projects typically conduct engagement at various points throughout the development process. Typically, the community is involved at the beginning of the project to develop conceptual frameworks, gather concerns and ideas to shape the projects. In addition, this helps develop strong relationships with the community and allows project managers to resolve issues much more effectively as the project continues. In most cases, despite conflicting community interests, most communities/stakeholders end up supporting the final project scope with an understanding of the issues or compromises required.
- The COVID-19 pandemic has required that all community engagement be conducted virtually. Engagement strategies used during the FY21-23 CIP include doorhangers, training of resident organizers, Zoom focus group briefings in English and Spanish, text and on-line surveys, and consultant support to submit CIP public requests in deep East Oakland to address the geographic gap from the previous CIP cycle. Many of these methods have also been deployed successfully by other OakDOT projects.

**7. Please list the projects that are currently on the CIP list that were not on the list in the 2019-2021 budget cycle, regardless if they were allocated bond funding. Which of these received bond funding?**

There are no new CIP projects added to the FY 2019-2021 CIP budget cycle. DOT and OPW are in the process of developing the new CIP budget recommendations for FY 2021-23. The recommended project list will be submitted to the City Council as part of the budget process. The 2019-2021 CIP budget and project list, funded and unfunded, have been provided via a link to the Treasury Department.

Sources of leveraged funding	% of KK funds spent on soft costs (Report when project is complete; Generally pre and post construction costs)
1004861	Museum Collection Center Seismic Improvements & Museum Landscape/Water Quality Improvements	Lancaster St. and 1000 Oak Street, Oakland, CA 94601	The City's vast collection of art, historic and scientific artifacts, and culturally significant objects is currently housed in a building that has evidence of significant structural defects and does not meet current seismic requirements. A structural survey from 2012 identifies severe cracking in wooden compression and tension joists that support the ceiling. It also calls for reinforcement of the exterior walls to prevent collapse. Work was undertaken in 2012 to repair the very worst of the structural timbers but there remains a number of trusses and support columns with cracks that compromise their load carrying capacity. Furthermore, anchoring of the exterior walls to the roof diaphragm are insufficient. To protect the City's irreplaceable collection and provide a safe and secure environment for the people who work in this building, repairs must be done to at least the most vulnerable truss members, the exterior walls, and their	Museum	2	Energy, Seismic & Water Quality	\$ 4,000,000		0%	\$ 4,000,000	\$ 4,000,000			
1004862	Oakland Animal Serv. Ctr. - Floor replacement/drainage improv	Lancaster St. & 1000 Oak St, Oakland, CA 946	Floor replacement - replace the existing 12x12 linoleum tile flooring in lobby, hallways, and work areas with sheet vinyl or other impervious flooring material with minimal joint spaces. This will cover approximately 1/2 of the existing flooring in the entire shelter. Drainage - 2 outdoor areas need drainage work: dog yard & ACO vehicle staging area. Both areas are basically non-functional. Grading, french drains needed in dog yard; unknown what will be needed for existing, non-functional vehicle staging area drain. ## Capital Improvement Program (CIP) Public Request Form

The Capital Improvement Program or CIP improves and maintains Oakland's public buildings and spaces. Capital projects can look like building new recreation centers, fixing old fire stations, and repaving streets. By filling out this form, you can suggest a capital project in your neighborhood!

Questions that have a \* are required to be answered.

---

### Types of Capital Projects:

#### Transportation:

Capital projects here improve safety for walking, biking and/or driving. Examples include paving streets; repairing sidewalks, curb ramps, bridges; building separated bike lanes or pedestrian paths; improving traffic signals; adding elements to slow traffic and others.

#### Buildings & Structures:

Capital projects here include new building of or improvement of recreation centers, fire stations, community centers, and other City buildings, facilities and structures. These could be

in a park space.

**Parks & Open Spaces:**

Capital projects here include making improvements to playgrounds and tot lots, parks open space, baseball fields that could include facilities such as restroom, concession stands, and storage.

**Sanitary Sewer/Wastewater:**

Capital projects here include rebuilding of sewers throughout the City. The City is required to plan and make repairs and replacements to the old sewers and use practices that prevent sewage leaks into creeks, lakes, and the San Francisco Bay. Funding for emergency repair and replacement of sewer facilities is also included.

**Storm Drainage & Waterways:**

Capital projects here include the building of failing storm drains facilities and projects that protect and improve watersheds throughout the City such as creek improvement, green projects, and other stormwater pollution prevention projects to meet water regulations. Funding for emergency repair and replacement of storm drain facilities is also included.

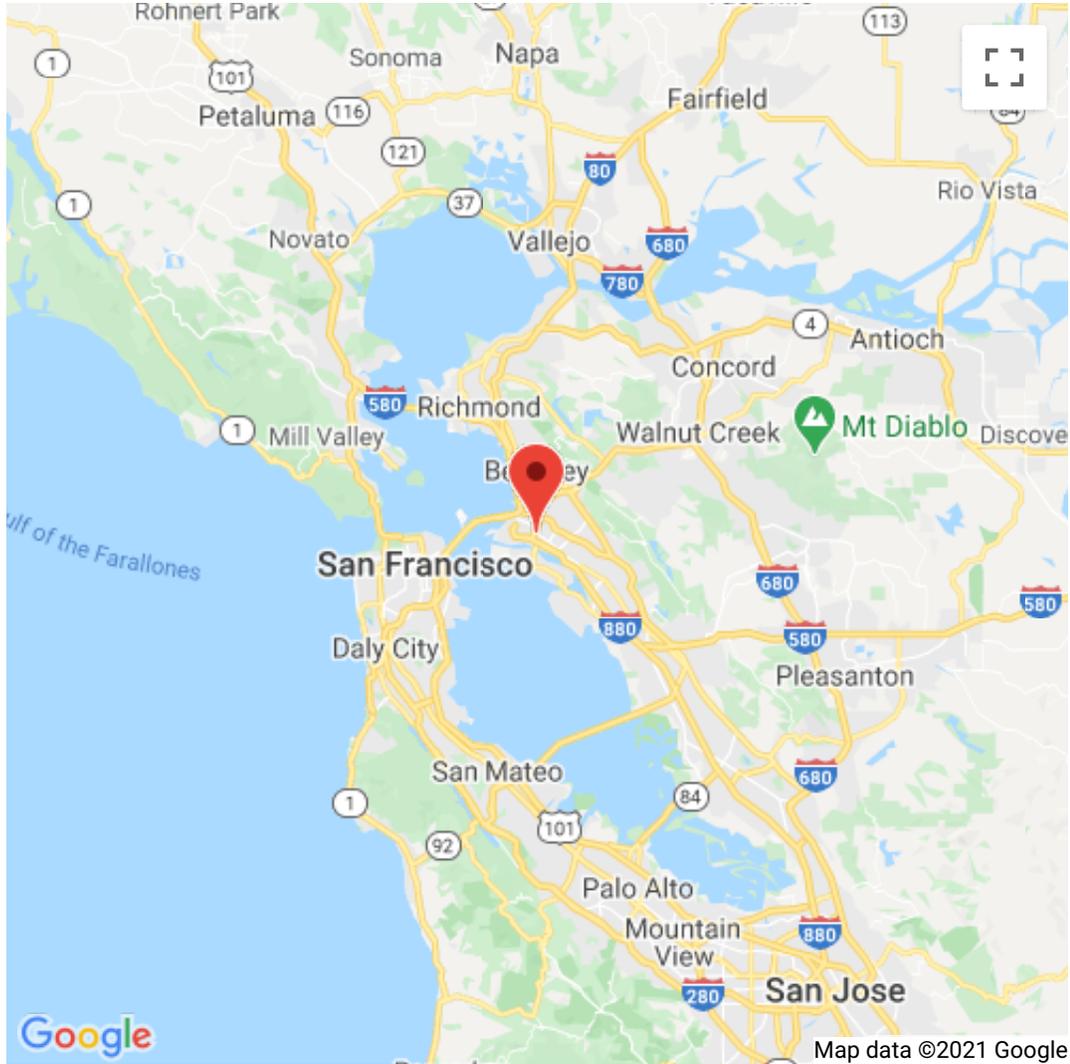

Please check the type of capital project for your suggested idea (if you don't know, that's OK):

- Transportation
- Buildings & Structures
- Parks & Open Spaces
- Sanitary Sewer/Wastewater
- Storm Drainage & Waterways
- Other:

Tell us about your capital project idea. \*

Do you have a name in mind for your capital project?

Please drag the cursor over the location of your capital project.

Latitude

Longitude

What main street intersection is your capital project by? Example: Broadway and 14th St.\*

# CIP Prioritization Factors

The CIP scores project ideas based on 9 Prioritization Factors -- ideas that score higher are more likely to be funded, so you can strengthen your idea by considering these factors.

**Equity:**  
For everybody in the community.

**Health & Safety:**  
Makes the community healthier and safer

**Project Readiness:**  
Planned out and ready to be started.

**Environment:**  
Preserves and conserves the environment.

**Economy:**  
Invests where we haven't invested equally before.

**Required Work:**  
Meeting the City's codes and laws.

**Existing Conditions:**  
Poor existing conditions that present a hazard to the community.

**Improvement:**  
Builds or provides upgrades to city facilities, transportation (streets/sidewalks) and public spaces.

**Collaboration:**  
Involves other community groups to help out.

In your opinion, which of these benefits will your capital project MOST LIKELY provide? This form will provide space for you to explain more about these further below.

- Gives access to health services and programs
- Makes people safer
- Gives access to recreational programs and services
- Allows residents to access to jobs and supports the neighborhood's economy
- Makes the neighborhood beautiful and gives it character
- Makes the neighborhood more environmental-friendly (solar panels, energy conservation, and other ways to reduce carbon footprint)
- Empowers neighborhood organizations and residents
- Other:

How do you think your capital project can make the neighborhood better by adding health or safety programs? (200 characters):

200/200

How can your capital project make people safer? (200 characters)

200/200

Describe how your capital project will give access to services that improve healthy living, life expectancy, new recreational centers, public health. (200 characters):

200/200

How could your capital project give people access to job and support your neighborhood's economy (200 characters):

200/200

How could your capital project make the neighborhood more beautiful and give it character? (200 characters):

200/200

How does your capital project make the neighborhood more environmentally-friendly? (200 characters):

200/200

How can your capital project empower neighborhood resident and organizations? (200 characters):

200/200

In your opinion, how will your capital project improve the well-being of the community? (200 characters max.)

200/200

Has any work related to your capital project started?

- Yes
- No

Who started the capital project?

How many community meetings were held for the community to provide input?

200/200

Please list other groups or organizations, if any, that have worked on this capital project with you.

200/200

Does this capital project have funding? Is there a deadline for the funding to be used? (200 characters):

200/200

Is this a NEW CAPITAL PROJECT or an IMPROVEMENT of an existing capital project?

200/200

As far as you can tell, what BARRIERS exist in making your capital project idea come to life? (200 characters):

200/200

Will your project need funding for ongoing maintenance or service?

200/200

Is there anything else you wanted to say about your capital project? (200 characters):

200/200

| <input type="checkbox"/> District 2 | <input type="checkbox"/> District 4 | <input type="checkbox"/> District 6 | <input type="checkbox"/> Citywide   |

5. Proposed Work Type: (Choose one category)

- Renovation/addition:** New Construction or any substantial rehabilitation of an existing site, building or system.
- Replacement:** New installation of components of a site, building or system which prolongs the life and/or increases the value.
- Remodel:** Work performed to alter a site or building over in a different way within existing footprint.
- Maintenance/Repair-** Work required to keep existing improvements in their existing operational state. This does not include any modification that changes the character, scope, or size of the original structure, facility, utility or improved area.
- New:** Work will create a physical site amenity, building, etc. that does not exist.

6. Type of Asset Category (What type of improvement-choose one):

- Buildings & Structures:** Projects in this category include new construction and replacement or improvement of recreation centers, fire stations, community centers, and other City buildings, facilities and structures that could be in park space.
- Parks & Open Spaces:** Projects in this category include improvements to playgrounds and tot lots, parks open space, ballfields that could include support facilities such as restroom, concession, storage.

7. Evaluation Factors and Criteria (supporting description to meet evaluation factors rubric).

<b>1) Equity/Investment in Underserved Oakland Communities:</b>
1a) What Neighborhood Priority is your proposed project located in? Please use the Oakland Equity Map and check the appropriate box. Link: <a href="#">Oakland Equity Map</a>  <input type="checkbox"/> Highest <input type="checkbox"/> High <input type="checkbox"/> Medium <input type="checkbox"/> Low <input type="checkbox"/> Lowest <input type="checkbox"/> No Data
1b) Is the Project located within ¼ mile of 100% affordable housing developments? Use the link and enter the proposed project address. Link: <a href="#">Oakland Affordable Housing Map</a>  <input type="checkbox"/> Yes <input type="checkbox"/> No
<b>2) Health &amp; Safety:</b>
2a) (Building) If Project is in Highest, High or Medium High Priority Neighborhood only: Project must add programs or services to improve access to preventive care, child health, mortality, physical and mental health or reduce crime on site at locations with disparate crime rates.  <input type="checkbox"/> Adds health programs? <input type="checkbox"/> Adds safety programs? <input type="checkbox"/> None Describe health and/or safety programs indicated above (200 characters):
2a) (Open Space) If Project is in Highest, High, or Medium Priority Neighborhood only: Project/program provides recreational opportunities to target a disparity among communities with less access. Is your project in an area considered “Park Deficient Neighborhood” according to the State Parks Community Fact Finder. Link: <a href="#">State Parks Community Fact Finder</a> . (1) Enter address and hit enter; 2) Note the data for “Parks per 1,000 People” in the table to the left and check the appropriate box below.  Please check the appropriate “Parks per 1,000 People” <input type="checkbox"/> Yes (check one) <input type="checkbox"/> less than 3 acres per 1000 residents <input type="checkbox"/> greater than 3 acres per 1000 residents <input type="checkbox"/> No
2b) Project addresses an immediate life safety risk, imminent environmental hazard or health threat.

Check all that apply:

- Does it remove hazards?
  - Yes
  - No
- Does it add safety and security?
  - Yes
  - No

Describe how it removes hazards or adds safety and security (200 characters):

2c) Does the Project increase access to services for healthy living or improved public health? Such as, new recreational amenities or programs; access to information (health, medical, nutrition, exercise, etc.); any other opportunities that influence life expectancy, healthy living and access to community services.

- Yes
  - Describe **new** service, amenity or program that currently does not exist that addresses healthy living, improved public health, new recreational opportunities, other opportunities that influence life expectancy;
  - Describe **new** access to health, medical, nutrition, exercise, etc. information (can be programs, extended hours to the programs)
- No

Describe service or access that will be provided indicated above (200 characters):

### 3) Community Investment and Economic Prosperity:

3a) If Project is in Highest, High or Medium High Priority Neighborhood only:

Does the Project provide economic development opportunities by providing jobs, job training or internship opportunities by partnering with community programs?

Check all that apply:

- Project increases job and economic opportunities for low income and people of color
- Project improves mobility to access needed local amenities (jobs, housing, education, recreation, services) among Oaklanders with disparate access;
- Project increases the number of transportation programs/services designed for seniors, youth, low income communities and people with disabilities
- Project improves lighting near key businesses, education, or recreational facilities which are utilized by communities with disparately low use / engagement
- Project supports people of color business ownership;
- Project increases educational opportunities, access to employment information or increases graduation rates.

None.

3b) Does the Project promote local economic development/opportunities and/or revitalize the area and/or create community building opportunities?

Check all that apply:

- Project contributes/integrates to the existing aesthetic value and character of the neighborhood or corridor;
- Project improves conditions to business centers/corridors bringing more customers by adding Automated Pedestrian Signals or on-street parking turnover;
- Project stabilizes and maintains people in the neighborhood
- Project increases home ownership;
- Project creates hydrological improvements and flood prevention, such as increasing flow capacity, improving/restoring create meander and pools;
- Project creates community stewardship or a new social and economic community benefit such as providing significant improvement to the local area; increases customer satisfaction with better on-street information;
- Project addresses loading needs of businesses.
- None.

List benefits in each category. (200 characters)

3c) Does the Project restores/preserves existing cultural, historic and/or natural resource?

List resource(s) and CEDA Historic Resource Category.

[CEDA Historic Resource Category Map](#) (Click on Parcels and CEDA APP, Historic Resources sub layer). Hint: Turn layers on/off one at a time.

Is the proposed project in any of these sublayers? (Check all that apply)

- Heritage Property
- Designated Historic District
- Landmark
- Area of Primary Importance:
- Potential Designated Historic Property
- Areas of Secondary Importance
- None

#### **4) Environment/Sustainability:**

4a) Does the Project address equity goals specific to improve sustainability, reduce greenhouse gas emissions, or promote community leadership in neighborhood most in need?

Check all that apply:

- Encourage/empower neighborhood organizations around environmental justice
- Reduce carbon footprint – such as solar panels, electric replacement of natural gas appliances, energy storage
- Reduce natural resources use – such as solar panel, limited water use fixtures
- Other
- None

Please describe “Other” (200 characters):

4b) Does the Project integrates multiple strategies implementing Action Items from the Equitable Climate Action Plan (ECAP) including reduction or elimination of natural gas systems, conversion of facility to a resilience hub, expansion of electric vehicle charging infrastructure, green infrastructure, access to multiple transportation options and reduces the need for auto dependency, integrate multiple strategies to promote sustainable neighborhoods? Link: [Oakland Equitable Climate Action Plan \(ECAP\)](#)

Check all that apply:

- Project supports two ECAP Action Items (specify by Action Item numbers)
- Project supports three ECAP Action Items (specify by Action Item numbers)
- Project supports four or more ECAP Action Items (specify by Action Item numbers)
- Project will meet Green Building Ordinance (LEED Silver Certification)
- Project will meet Bay Friendly Landscaping Ordinance (ReScape Certification)
- None

Please describe the specific ECAP Action Item Numbers the Project will support (200 characters):

4c) Does the Project is designed to promote resiliency by facilitating emergency response services/facility and/or reducing the impact of natural disasters, including climate change?

Check all that apply:

- Installs solar photovoltaic panels
- Installs energy storage (chemical or mechanical battery systems)
- Creates or enhances ability of facility to operate as a resilience hub (project provides full commercial kitchen, showers, cooling center, full ADA compliance)
- Project eliminates natural gas from a facility (risk reduction)
- Enhances electrical or operational systems in a post disaster relief facility
- Adds or enhances onsite Recycled water, rainwater collection, carbon sequestration
- None

## 5) Improvement: Level and Quality of Service

5a) Does the Project target reduced disparities with improved quality of service or resources? Do the Project improvements invest in geographies or among communities that have reduced Quality of Service relative to others?

Check all that apply:

- Senior
- Low Income
- Youth between 10-19
- Population with a Disability
- Zero Vehicle Households
- None

Describe how (200 characters):

5b) Does the Project improve or expand the level of quality of service for the public, wildlife or property?

Check one:

- Yes
- No

If "YES", describe any added programs, activities, or increasing/improving wildlife habitat as a result of this project (200 characters)

**6) Asset (Existing) Conditions:**

6a) Does the Project lessen the amount of system/facility downtime by:

Check all that apply:

- Maintain current infrastructure footprint?
- Improve current infrastructure?
- Replace current infrastructure?
- Other: (List)
- None

6b) Does the Project mitigate more expensive future repair or reduces operation and maintenance (O&M)?

Check one:

- Yes
- No

6c) Does the Project increase the useful life of the asset?

Check one:

- Yes
- No

**7) Project Readiness:**

7a) Stage of the Project:

Check one:

- No Work Initiated
- Feasibility Study
- Schematic Design
- Design Development
- >90% Construction Drawings

7b) Project has no significant engineering barriers to completion of design or implementation (such as right of way acquisition, CEQA, EIR)

Has the project overcome the following significant barriers in order to move forward with the construction of the project?

Check all that apply:

- Project is ready to advertise for construction
- Internal and external stakeholders have endorsed the project
- Necessary legislative action is completed such as Council-approved operating agreements
- All Planning approvals (CEQA, EIR, Historic, Planning Commission) and Building Plan Check is completed
- Right-of-way acquisition or any land use agreements have been completed or is not necessary for the project
- None

7c) Does the Project have funding with deadlines/expiration?

Check one:

- Yes
- No

**8) Multiple Asset Category Benefit and Collaborative Opportunities:**

8a) Does the Project partner or bundle opportunities with other local, state or federal agencies to leverage non-fiscal resources? Is this project driven by an under-represented (i.e. youth, minority group, single-parent families, seniors, disabled, etc.) group?

- Yes

Check all that apply:

- Collaborate with outside agencies or under-represented community
- Concept/design emerged from a community-driven planning process
- Leverage existing funding sources (outside OPW and DOT).
- Generate revenues or provide cost savings by bundling with other projects
- No

8b) Has the Project been identified on a master plan, specific area plan or other planning/governing document?

<p>Check one:</p> <p><input type="checkbox"/> Yes. List Document Name/Title:</p> <p><input type="checkbox"/> No</p>
<p>8c) Does the Project have funding?</p> <p>Check one:</p> <p><input type="checkbox"/> Yes. If yes, list source(s) and amounts</p> <p><input type="checkbox"/> No</p>
<p><b>9) Regulatory Mandate:</b></p>
<p>9a) Does the Project address/resolve a known liability in violation of a court order, settlement, or other legal obligation and prevents an imminent lawsuit against the City or reduce significant known liabilities based on prior court judgements?</p> <p><input type="checkbox"/> Yes</p> <p>Check all that apply:</p> <p><input type="checkbox"/> ADA</p> <p><input type="checkbox"/> Building Code</p> <p><input type="checkbox"/> Fire Code</p> <p><input type="checkbox"/> Other non-compliance. List:</p> <p><input type="checkbox"/> Limitation on public use of asset</p> <p><input type="checkbox"/> No</p>
<p>9b) Does the Project correct a regulatory deficiency or bring infrastructure into compliance with current code, regulations, or policies, such as ADA, building code, fire code, or other non-compliance and/or limitation on public use of asset?</p> <p><input type="checkbox"/> Yes</p> <p>Check all that apply:</p> <p><input type="checkbox"/> ADA</p> <p><input type="checkbox"/> Building Code</p> <p><input type="checkbox"/> Fire Code</p> <p><input type="checkbox"/> Other non-compliance. List:</p> <p><input type="checkbox"/> Limitation on public use of asset</p> <p><input type="checkbox"/> No</p>

## ATTACHMENT H

### Questions Regarding Expenditure of Measure KK Funds

#### HCD

Thank you for providing us with information about the expenditures of Measure KK infrastructure bond funds. Please complete the attached spreadsheet with details about the projects, as well as the questions below.

1. Is there anything limiting your capacity to use the funds? How do you plan to address these issues?

*There are several main categories of funding, each with their own funding commitment and disbursement processes.*

*New Construction: Of the nine Measure KK-funded new construction projects, one has completed construction (Camino 23), three are currently in construction (3268 San Pablo, Aurora Apartments and Coliseum Place) and five are in predevelopment and likely to start construction in the next few years, pending availability of other funds. New construction project funding is extraordinarily successful in leveraging non-City funding sources, but this takes time and the City's loan commitments are generally made far in advance of the project's actual loan closing.*

*Transitional Housing: Measure KK funds made the purchase of the Holland possible in 2018. Properties suitable for acquisition of transitional housing are moderately limited, but the City has been diligently pursuing property leads, as well as the operating subsidies and service partners needed to make these deals feasible.*

*Bond funds are legally not eligible for covering operating subsidies, which makes leveraging these funds from outside sources absolutely imperative. However, with assistance from the State of California Homekey program, staff was able to leverage much of the remaining Measure KK funding for transitional housing to fund the acquisition of three properties with 185 units for homeless residents before the end of 2020 (Clifton Hall, BACS Scattered Sites, and the Inn at Temescal).*

*Acquisition and Conversion to Affordable Housing (ACAH): A successful ACAH Notice of Funding Availability (NOFA) issuance in late 2019 has led to funding commitments and reservations for ten acquisition deals in 2020, five of which have closed their loans.*

*There were several lessons learned from that NOFA round that have been implemented in the current ACAH NOFAs, for both Coops and Community Land Trusts, as well as a general sponsor pool, including scoring changes to further emphasize anti-displacement efforts, an increased number of applications allowed in the Coop/CLT pool, and greater clarity regarding City program requirements.*

*Rehab and Preservation: Following a NOFA issued in 2019, staff made several funding awards to assist with the rehabilitation and preservation of existing affordable housing in 2020 and plans to make one final award for a rehab project this month, pending CEQA clearance.*

2. Please describe how staff vacancies have impacted your ability to implement the programs and spend the funds. How has COVID-19 impacted your capacity to implement the funded programs and delivery of projects? How long have these positions been vacant?

*In 2020, Housing Development Services (HDS) was able to fill four out of six vacant positions, bringing unit staffing from 50% to 85%. Although not every position in the unit supports Measure KK activities directly, this increased staffing, along with temporary outside consultant contracts, permitted HDS to close numerous loans and acquire/commence construction on numerous affordable housing developments this year. Several new hires were brought on board during Shelter in Place.*

*Currently, the remaining two positions are frozen due to city budgetary concerns, which will potentially impact the speed at which the acquisition and development pipelines move forward.*

3. What do you anticipate might be the impact of the city's budget deficit on the implementation of the funded programs and delivery of the projects?

*Although Measure KK funding has restricted uses, and affordable housing portions of the Bond must be spent in accordance with the Bond measure as approved by voters, the potential hiring freeze may slow down the speed of progress on the development and acquisition pipelines, particularly given staff's reliance on other City departments for processing planning and building approvals, scheduling inspections and processing payments.*

4. What is the current average AMI for all of the units? How are you ensuring that 20% of all new construction units needs to be below 30% AMI?

*Average AMI: 52.6%*

*Average AMI for New Construction units: 46.4%*

*The requirement that at least 20% of new construction units be affordable to households earning at or below 30% AMI was a threshold requirement to be eligible for funding in recent NOFA rounds. This requirement is tied to the funding awarded and memorialized in the City's regulatory agreement.*

5. Describe the criteria or point system that was used to determine which projects received funding.

*Under the New Construction and Rehabilitation and Preservation NOFAs, projects were awarded points for meeting a number of objectives, including developer experience and project readiness, depth of affordability, provision of homeless/special needs units, and meeting certain green building requirements.*

*Under the Acquisition and Conversion to Affordable Housing (ACAH) NOFAs, projects receive points for acquiring properties with substandard conditions, where existing tenants are in danger of displacement, where tenants are involved in the process, and/or developers are emerging developer with relatively few projects under their belts or that are new to affordable housing development. Attached are the scoring criteria from the ACAH NOFA.*

6. For acquisition rehab projects, please describe the resident participation that the developer has used.

*This has been a somewhat mixed process – in some cases, tenants have been deeply involved in sponsoring the project’s acquisition as affordable housing, especially on the coop and land trust side. In other cases, landlords have prohibited buyers from contacting tenants until the acquisition closes. However, in all cases, the applicant is encouraged to work with residents, particularly post-acquisition.*

7. For new construction projects, are there requirements for the developer to engage in a community acceptance process and if so, what are they? How do you ensure that the developer actually implements the process?

*For new construction projects, developers must submit evidence of having held at least one community meeting prior to submitting the NOFA application, and are encouraged to meet with the councilperson for that district. Developers must submit meeting agendas, sign-in sheets, and a description of questions/issues raised and their responses to those.*

*Developers are also encouraged to hold periodic meetings with community members (often through Neighborhood Crime Prevention Councils), and to include a robust resident engagement process in their property management plans (reviewed and approved by City Asset Management staff prior to award of funds).*

8. How much of the infrastructure bond funds has been allocated to rehabilitation compared with new construction?

*The split is approximately: 87% acquisition/rehabilitation and 13% new construction.*

9. For occupied acq-rehab, do the affordability numbers reflect the affordability level of the rents at acquisition or the income levels of residents?

*The numbers are reflective of the regulated affordability. Once properties are acquired, borrowers are required to request annual income information from existing tenants, which is a requirement for qualifying new tenant households.*

10. Do you have a plan to lower rents over time? If so, please describe. If not, please describe how you plan to stabilize or regulate rents over the long term.

*With ACAH projects, tenant incomes are expected to range from extremely low income (30% of AMI) to low income (80% of AMI). If the average income of existing tenants is greater than eighty percent (80%) of AMI upon acquisition, then vacancies are required to be filled with households with incomes at or below sixty percent (60%) of AMI, with rents no higher than thirty percent (30%) of sixty percent (60%) of AMI, until the average household income for the project reaches eighty percent (80%) of AMI. Regulated units must comply with the City's Annual Rent Increase Policy on City Restricted Units, which limits annual rent increases based on rent burden.*

*However, all existing tenants may stay in their home regardless of income. Permanent relocation of tenants is not allowed under this program.*
